

European Solidarity Corps Resource Centre

We support National Agencies and organisations in the youth field and beyond with the implementation of the European Solidarity Corps programme. Our mission is to explore the potential of solidarity as a core value in European societies and to promote the use of the European Solidarity Corps as a tool for understanding and living solidarity. We coordinate networking activities, training, seminars and events that will support the quality implementation of the programme and maximise its impact. By doing this, we contribute to building a European Solidarity Corps community of organisations.

SALTO Training & Cooperation

We contribute to the quality and development of training strategies and activities in the youth field, and to the recognition of non-formal and informal learning in youth work throughout Europe. With the European Training Strategy, we support the competence development and capacity-building of youth workers and trainers, as well as of the staff of National Agencies. We support quality approaches in transnational cooperation, networking and mutual learning among National Agencies and various partners. As part of our work with the Youthpass strategy, we offer a recognition tool, training and guidance on learning processes and outcomes from youth work and solidarity activities.
