

Bringing both sides of the Mediterranean Sea together: the challenge of the EuroMed cooperation

... SALTO-YOUTH

...Stands for “**Support and Advanced Learning & Training Opportunities**” within the Youth in Action programme. This is a network of 8 Resource centres created to enhance the implementation of the Youth in Action programme by providing its support, trainings and information to National Agencies (NA) and EuroMed Youth Units (EMYU).

Specifically, **SALTO-YOUTH EuroMed** supports and reinforces the **Euro-Mediterranean cooperation** by offering trainings, events, educational tools and practices, support to the network and partnerships. In cooperation with NA/EMYU we organise thematic trainings, seminars, conferences, some are innovative, on EuroMed Youth priorities. These enable participants to share, to test, to analyse, to transfer and to develop new project ideas, new partnerships and to implement these priorities in their future projects.

SALTO EuroMed resource centre is also in charge of compilation and dissemination of educational tools and practices in the field of youth, training, to create a common memory.
