### PROJECT DESCRIPTION

In youth activities, the concept of identity has proven itself again and again to be the core topic in working with difference and diversity. In recent years it has been requested by several SALTO stakeholders that this topic have a higher focus. That's why it was decided to create a publication or tool on the concept of identity in international youth work.

The publication (or tool) will provide material that youth leaders across Europe can use in their every day youth work, and also to improve projects under the YiA programme. It will include information, research and background discussions, together with activities, methods and ways to approach the different respective areas of identity with young people.

The publication will be in (international) English.

### Methodology

The authors will be responsible for researching and gathering information on the subject as well as building the structure and writing the text. They will have to cooperate to create the publication.

SALTO Cultural Diversity will give objectives and guidelines, and will feedback the process, structure and content of the publication. SALTO Cultural Diversity will be responsible for the design and printing of the publication.

An intern (March-August 2010) will be supporting the work of the authors by gathering information and making research.
