

Closer to Farm Free E-Learning Course

Join the journey with Closer to Farm and transform the way you consume and engage with your local food system.

WHAT YOU WILL LEARN

- How sustainable food production works: from organic farming to smart packaging and circular systems.
- How to make informed, eco-friendly choices when buying
- Tools and ideas to reduce waste, support local farmers, and become an active “short-supply chain hero” in your community.

WHO IS IT FOR?

Whether you're a student, professional, community leader, parent or simply someone curious about where your food comes from, this course will inspire you to act and to live more sustainably.
