

Closer to Farm Escape Rooms

Join Closer to Farm and discover a fun, interactive way to learn about sustainable food systems and rethink the way you consume, choose, and connect with local food.

WHAT YOU WILL LEARN

Our escape rooms are online, educational, and collaborative games. The set, fully accessible via the web, includes three virtual rooms filled with puzzles, challenges, and real-life inspired scenarios about sustainable agriculture.

The goal is to understand how sustainable food production really works and to sharpen your ability to make conscious, eco-friendly decisions in your daily life.

WHO IS IT FOR?

Visit the Closer to Farm website and access the online Escape Rooms — available in all partner languages.

“Three rooms designed to explore sustainable food systems through play, reflection, and real-life challenges.”
