

I have a voice, I have a dream! – Operation influence starts now!

Are you between 15 and 25 years of age? Do you want to make a difference? And do you want to participate in the democratic society around you?

Then join Youthcamp2011, where active young people from all over EU will meet to jointly develop ideas, debate democracy and establish networks across geographical borders. The activities at the Youthcamp will strengthen young people in their work developing projects for and with young people in their local area, and engaging other young people in the democratic decision-making processes.

The year's most important youth event on democracy

Youthcamp2011 will take place from Friday the 12th to Sunday the 14th August in Ballerup Sports Park – Denmark.

The Youthcamp is for young people, who have some experience with the democratic process through youth projects, youth councils or youth organizations.

The personal goals for the participants of the camp are to:

-  LEARN IT – share knowledge and experiences!
-  SHARE IT – create networks and relations!
-  DO IT – participate in social and cultural activities!

The underlying and bigger goal of the camp is to tell the world, the political leaders and the people around us that young people have dreams and ideas and want to express their opinions and to get their voices through to the political leaders.

The camp consists of a series of workshops, where Danish and foreign presenters talk about e.g. inter alia, international political cooperation, project development and youth participation. The camp also offers social and cultural events, such as film, music, swimming, video art, song writing and much more. As a participant in the camp you will help to shape the camp and its contents. The activities described in the Youthcamp2011 programme are free for the participants and Youthcamp2011 provides accommodation, food and water during the camp. The participants pay their own travel costs to and from Youthcamp2011.

Youthcamp Organizer Group consists of young people from Fingal in Ireland, Nacka in Sweden, Adalar in Turkey and Ballerup in Denmark.
