This document highlights the opportunities within the European Union's Erasmus+ Programme in the field of youth. All the contents are presented with the intention of providing an overview as a first step into the Erasmus+ Programme. Before proposing a project application for financial support from the Programme, applicants are strongly advised to read the Programme Guide for the particular year, which outlines in detail the conditions and criteria for funding and the obligations of the beneficiaries, and/or contact their National Agency or regional SALTO Resource Centre for further information and advice.

Programme Guide 2019: https://ec.europa.eu/programmes/erasmus-plus/resources/programme-guide_en

ERASMUS+ PROGRAMME

Erasmus+ is the European Union Programme in the fields of education, training, youth and sport until 2020. It builds on the 25-year tradition of European programmes in the relevant fields, with the addition of support for grass roots sports.

The Programme addresses the contemporary socio-economic challenges in Europe by strengthening education and training systems, youth work and youth policies and promoting life-long learning. Education, training, youth work and sport are key to promote common European values, foster social integration, the inclusion of people from disadvantaged backgrounds and intercultural understanding and prevent violent radicalisation. The Programme aims to provide young people with the skills and competences required by the labour market and the economy while enabling them to play an active role in society and achieve personal fulfilment.

The Programme's implementation pursues the following general objectives:

- the objectives of the Europe 2020 Strategy, including the headline education target¹;
- the objectives of the strategic framework for European cooperation in education and training (ET 2020), including the corresponding benchmarks;
- the sustainable development of Partner Countries in the field of higher education;
- the overall objectives of the renewed framework for European cooperation in the youth field;
- the objective of developing the European dimension in sport, in particular grassroots sport, in line with the EU work plan for sport;
- the promotion of European values in accordance with Article 2 of the Treaty on the European Union². (Source: Version 1 (2019): 24-10-2018)

The general objectives of the Programme are complemented by specific objectives for each of its chapters.

The Programme is divided into three major areas:

The field of education and training offers opportunities for the **school sector** (pre-university education), the **vocational education and training sector**, the **tertiary education sector** and the **adult education sector**, while **Jean Monnet** offers support for European studies through support to higher education institutions.

The field of youth offers opportunities for the **youth sector**.

The field of **sport** is focused on the sport sector and major international cooperation projects or events.

¹ The headline education target is to reduce early school leaving to less than 10% and increase attainment in tertiary education to at least 40% by 2020.

² The Union is founded on the values of respect for human dignity, freedom, democracy, equality, the rule of law and respect for human rights, including the rights of persons belonging to minorities. These values are common to the Member States in a society in which pluralism, non-discrimination, tolerance, justice, solidarity and equality between women and men prevail.

Opportunities for support within the Programme are divided into three Key Actions:

Key Action 1: Mobility of individuals

This Key Action is dedicated especially to the international learning mobility of individuals or groups, where the main purpose of cooperation is to enable and enhance the learning of participants.

Key Action 2: Cooperation for innovation and the exchange of good practices

This Key Action is meant for the strategic and long-term cooperation of partners from different countries aiming at innovation, sustainable outcomes and the overall development of structures and policies in the fields of education, training and youth in Europe.

Key Action 3: Support for policy reform

This Key Action aims at supporting policy reform in the fields of education, training and youth in Europe, in particular the achievement of the goals of the Europe 2020 Strategy, of the Strategic framework for European cooperation in education and training (ET 2020) and of the European Youth Strategy.

ERASMUS+: YOUTH IN ACTION

Activities within the Programme targeting the youth field are referred to as Erasmus+: Youth in Action, which provides various possibilities for young people, youth workers and youth policy makers to cooperate, gain competences and be proactive in building a sustainable and democratic European society. In addition to the objectives common to the Programme as a whole, Erasmus+: Youth in Action functions as an important instrument to put into practice the European Union Youth Strategy 2010 – 2018, set in the resolution of the Council of the EU from 27 November 2009. The framework defines eight priority areas of cooperation within the Union and its Member States until 2018. The key objectives of this cooperation are:

- to provide more and equal opportunities for all young people in education and on the labour market;
- to promote the active citizenship, social inclusion and solidarity of all young people.

Building on the Youth Strategy, the specific objectives pursued by the Erasmus+ Programme in the field of youth are to:

- improve the level of key competences and skills of young people, including those with fewer opportunities, as well as to promote participation in democratic life in Europe and the labour market, active citizenship, intercultural dialogue, social inclusion and solidarity, in particular through increased learning mobility opportunities for young people, those active in youth work or youth organisations and youth leaders, and through strengthened links between the youth field and the labour market;
- foster quality improvements in youth work, in particular through enhanced cooperation between organisations in the youth field and/or other stakeholders;
- complement policy reforms at local, regional and national level and to support the development of knowledge and evidence-based youth policy as well as the recognition of non-formal and informal learning, in particular through enhanced policy cooperation, better use of EU transparency and recognition tools and the dissemination of good practices;

- enhance the international dimension of youth activities and enhance the capacity of youth workers and organisations in their support for young people in complementarity with the European Union's external action, in particular through the promotion of mobility and cooperation between stakeholders from Programme and Partner Countries and international organisations.

(Source: Version 1 (2019): 24-10-2018)

What is non-formal learning?

The Erasmus+: Youth in Action Programme offers young people various opportunities for the acquisition of competences and personal development through non-formal learning. The concept refers to learning which takes place outside the formal educational curricula, and embraces a participative, indiscriminate and learner-centred approach. Non-formal learning is carried out on a voluntary basis and is therefore closely linked to young people's own needs and interests. A high-quality non-formal education provided by the beneficiaries is a key aspect of all projects granted within the Erasmus+: Youth in Action Programme.

ACTIVITIES SUPPORTED BY THE ERASMUS+: YOUTH IN ACTION PROGRAMME

The Erasmus+: Youth in Action Programme supports the following activities:

Mobility activities within Key Action 1 or Key Action 2, in particular:

- **Youth Exchanges**
- **Mobility of youth workers**

A youth mobility project can include one or more mobility activities.

Strategic partnerships and Capacity-building in the field of youth within Key Action 2

Youth Dialogue projects within Key Action 3

COOPERATION WITH NEIGHBOURING PARTNER COUNTRIES WITHIN ERASMUS+: YOUTH IN ACTION

The Erasmus+ Programme is also open for Partner Countries Neighbouring the European Union. (more information on all participating countries on pages 24-25.)

Organisations from the Neighbouring Partner Countries can take part in the Erasmus+: Youth in Action Programme as:

1. **Partners** in the following projects:
 - **Youth Exchanges or Mobility of youth workers** in projects within Key Action 1
 - **Strategic partnerships in the field of youth** in projects within Key Action 2 (under specific conditions)

- **Meetings between young people and decision-makers in the field of youth** in projects within Key Action 3
2. **Applicants** of the following projects:
- **Capacity-building in the field of youth** in the framework of the Western Balkans Youth Window, the Eastern Partnership Youth Window or the Tunisia Youth Window, within Key Action 2. Besides Capacity-building activities, which are key to each project, projects can include mobility activities (Youth Exchanges or Mobility of Youth Workers, corresponding to the activities within Key Action 1 or Volunteering activities).

YOUTH EXCHANGE

A Youth Exchange is an effective tool of non-formal and informal learning in youth work. It allows groups of young people from different countries to spend up to 21 days together, exploring topics that connect them. In this process, young people develop their competences, become aware of socially relevant topics and thematic areas, discover new cultures and lifestyles together with their peers from different countries, and strengthen values such as solidarity, equality and democracy.

Youth Exchanges are composed of several phases: drafting and planning the activity, followed by its implementation, the conclusion and evaluation of the activity, and finally the dissemination and exploitation of the results. The practical tasks the participating young people carry out in all stages of the activity offer them various learning opportunities, through which they can gain relevant competences. Setting Youth Exchanges in the context of non-formal learning requires that at least a part of the desired learning outcomes is planned in advance, in order to ensure the appropriate opportunities. The definition of the desired learning outcomes can start in any or each of the groups of young people by identifying the competences that the participants wish to obtain or develop through the Youth Exchange.

Each participating group has a youth leader, who helps and supports the young participants in the implementation of the activity. Because managing such an activity requires taking numerous decisions, a Youth Exchange can also be an opportunity to learn about democratic participation and the decision-making processes in the wider society. However, this can only be achieved if as many decisions as possible in the activity are taken by the young participants themselves, whereby the chance to shape the decisions together should also mean taking responsibility.

In the phases of the conclusion and dissemination of results, the experiences of the young participants also need to be presented to others. Each participating group can for example organise a presentation for their local environment on how they experienced the project, and the (local) media might also be eager to hear the stories from the participants themselves. By sharing their experiences this way, the group will give more value to the learning outcomes reached and will contribute to strengthening the importance of non-formal learning in youth work.

Eligibility criteria for support from the Erasmus+ Programme

Eligible partner: A public or private legal entity (primarily non-profit making) operating at the local, regional, national or European level, or an informal group of young people.

Origin of partners: Partners (participating youth groups) can come from Programme Countries or Partner Countries neighbouring the European Union. Every project must have at least one partner from a Programme Country.

Who can apply? Any participating organisation established in a Programme Country, on behalf of all partners. Applications are submitted to the National Agency in the applicant's country of residence.

Minimum number of partners:

- 2 (if the Youth Exchange is implemented within Key Action 1);
- 3 (if the Youth Exchange is implemented within Capacity-building in the field of youth within Key Action 2).

Participants: Young people aged between 13 and 30; a minimum 16 and a maximum 60 participants, group leaders / youth workers are not included; a minimum 4 participants per group, group leaders / youth workers are not included. The group leaders must be at least 18 years old.

Project duration:

- from 3 months to 2 years (if the Youth Exchange is implemented within Key Action 1);
- from 9 months to 2 years (if the Youth Exchange is implemented within the Capacity-building in the field of youth within Key Action 2).

Duration of project activity: From 5 to 21 days, excluding travel time.

Venue of the activity: Country of one of the participating organisations.

MOBILITY OF YOUTH WORKERS

The Mobility of youth workers allows actors in the youth field to set up, together with partners, activities for youth workers and youth leaders to support their professional development and strengthen their competences of working directly with young people. All these activities are arranged by the organisations participating in the project. The participation of youth workers in such activities contributes to the capacity building of their organisation and should have a clear impact on youth workers' daily work with young people. The learning outcomes should be further disseminated in the youth field. Activities should follow an approach and methodology suitable for non-formal education.

There are two types of mobility activities for youth workers: group activities with a larger number of partners and participants (e.g. professional seminars on topics related to youth work or youth policies, trainings for youth workers and other actors in the field of youth work, seminars on searching for project partners and study visits) and individual activities (e.g. job shadowing visits in partner organisations), which usually include two partners and one or two participants.

Eligibility criteria for support from the Erasmus+ Programme

Eligible partner: A public or private legal entity (primarily non-profit making) operating at the local, regional, national or European level.

Origin of partners: Partners can come from Programme Countries or Partner Countries neighbouring the EU. Each project must have at least one partner from a Programme Country.

Minimum number of partners:

- 2 (if the Mobility of youth workers is implemented within Key Action 1);
- 3 (if the Mobility of youth workers is implemented within Capacity-building in the field of youth within Key Action 2).

Participants: No age limits; a maximum 50 participants from the countries of the participating project partners, including trainers, facilitators and other staff carrying out the project activities. Participants must be resident in the country of their sending or receiving organisation.

Project duration:

- from 3 months to 2 years (if the Mobility of youth workers is implemented within Key Action 1);
- from 9 months to 2 years (if the Mobility of youth workers is implemented within Capacity-building in the field of youth within Key Action 2).

Duration of the project activity:

- from 2 days to 2 months, excluding travel time. The minimum 2 days must be consecutive. (if the Mobility of youth workers is implemented within Key Action 1);
- from 5 days to 2 months, excluding travel time (if the Mobility of youth workers is implemented within Capacity-building in the field of youth within Key Action 2).

Venue of the activity: Country of one of the participating organisations.

STRATEGIC PARTNERSHIPS IN THE FIELD OF YOUTH

Strategic Partnerships in the field of youth provide a possibility for implementing activities leading to the overall professionalisation and development of youth work practices in Europe. A great variety of activities are possible, aiming at experimentation or the application of innovative methods, tools or approaches or the exchange of best practice.

In particular, the activities may address fostering the development of young peoples' key competences, recognition of the outcomes of non-formal learning, professionalisation of youth workers, modernisation of the forms of delivering youth work, combating the marginalisation of youth at risk, transversal networking of different actors and institutions relevant for youth or the strategic cooperation of public authorities responsible for youth.

The Programme also supports projects of cross-sectorial Strategic Partnerships aiming at concrete results in the development of youth policies or strengthening competences for better organisation and performance of youth work. Such projects must incorporate actors from different fields covered by the Erasmus+ Programme, including the youth sector. Partnerships may also include enterprises, particularly when the desired project results are focused on increasing the contribution of non-formal learning in youth work to the greater employability of young people, especially those with fewer opportunities.

Strategic Partnerships in the field of youth also cover transnational youth initiatives, which are cooperation activities led by youth groups from different countries aiming at enhancing the participation and entrepreneurship of the participating young people.

As a general rule, Strategic Partnerships target the cooperation between organisations established in Programme Countries. However, organisations from Partner Countries can be involved in a Strategic Partnership, as partners, if their participation brings an essential added value to the project.

Priorities for 2019:

Projects

- promoting quality, innovation and recognition of youth work;
- aiming at encouraging, connecting and empowering young people;

- promoting entrepreneurship education, social entrepreneurship and not-for-profit activities among young people.

For more information on the types of activities possible within the Strategic Partnerships in the field of youth, please consult the Programme Guide (p. 106/107).

Eligibility criteria for support from the Erasmus+ Programme

Eligible partner: Any public or private legal entity.

Who can apply? Any participating organisation established in a Programme Country.

Origin of partners: Partners can come from Programme Countries. The participation of Partner Countries is possible if their participation brings an essential added value to the project.

Minimum number of partners: a minimum of 2 organisations from 2 different Programme Countries

Participants: No specific limitations.

Project duration: From 6 months to 3 years.

Venue of the activity: Country of one of the participating organisations.

CAPACITY-BUILDING IN THE FIELD OF YOUTH

Capacity-building projects are transnational cooperation projects based on multilateral partnerships between organisations active in the field of youth in Programme and Partner Countries. They can also involve organisations from the fields of education and training, as well as from other socio-economic sectors.

Generally speaking, Youth Capacity-building projects aim to improve the quality and recognition of youth work, non-formal learning and volunteering in Partner Countries and enhance their synergies and complementarities with other education systems, the labour market and society. They should also foster the development, testing and launching of new schemes and programmes of non-formal learning mobility and youth work practices, while increasing participants' competences and fostering their active participation in society.

Capacity-building projects are granted within the Programme's Key Action 2 and can be divided into 4 types of projects, according to Partner Countries targeted:

1. **Projects with Other Partner Countries**
2. Projects in the frame of the **Western Balkans Youth Window**. The projects should build the capacities of youth councils, youth organisations, youth platforms and local, regional and national authorities dealing with youth in the region, with a particular focus on reconciliation.
3. Projects in the frame of the **Eastern Partnership Youth Window**: Civil Society Fellowships for Youth and projects under the "Partnership for Entrepreneurship".
4. Projects between organisations active in the field of youth in **Programme Countries and Tunisia**

The term "Youth Window" refers to the fact that additional EU funds are allocated to the Erasmus+ Programme opportunities for youth cooperation with some Neighbouring Partner Regions.

Capacity-building projects, submitted by organisations based in Partner Countries, aim in particular at increasing the capacity of youth organisations through the implementation of **Capacity-building activities**. In addition, they may include **mobility activities** (Youth Exchanges, Volunteering activities and

Mobility of youth workers). (In Civil Society Fellowships for Youth, Eastern Partnership Youth Window, mobility activities are an obligatory part of the project.)

Capacity-building activities are key to each project. They should

- promote synergies and cooperation with public authorities, the education and training fields and the business sector;
- encourage policy dialogue, cooperation, networking and exchange of practices;
- develop new youth work methods, materials and tools, curricula, training modules or documentation instruments;
- create new forms of delivering youth work and providing training and support.

Capacity-building projects are composed of the project applicant/coordinator and partners and can also include “affiliated entities”, i. e. additional organisations which contribute to the achievement of the project objectives and activities.

For more information, please consult the Erasmus+ Programme Guide (p. 178).

Eligibility criteria for support from the Erasmus+ Programme:

Who can apply?

- Non-profit organisations, associations, NGOs (including European Youth NGOs); national Youth Councils; public bodies at local, regional or national level.
- Legally registered for at least **1 year**

For projects between Programme Countries and Other Partner Countries from Regions 5 to 14: The applicant must be established in a Programme Country and applies on behalf of all organisations involved in the project. Other types of organisations can be involved as partners, not as applicants.

For Western Balkans Youth Window projects: The applicant must be established in a Western Balkans partner country (Region 1)

For Eastern Partnership Youth Window projects: The applicant must be established in an Eastern Partnership country (region 2). In addition to the types of eligible applicant organisations mentioned here above, private companies, including social enterprises are eligible applicants.

For Tunisia Youth Window projects: The applicant must be established in Tunisia

Partners: Any **public or private organisation** established in a Programme country or a Partner country from region 1, 2, 5-14 or Tunisia.

Partnership:

Minimum of 3 participating organizations from **3 different countries**, including at least **1 Programme country and 1 Partner country**. Projects funded under one of the Windows may not involve participating organisations/participants from other Neighbouring regions.

Duration: 9 months – **2 years**.

Applications: Applications are submitted to the Education, Audiovisual and Culture Executive Agency in Brussels. Only one project application per deadline by the same applicant will be considered.

YOUTH DIALOGUE PROJECTS

Youth Dialogue Projects aim to promote the active participation of young people in democratic life and fosters debate around topics centred on the themes and priorities set under the EU Youth Strategy and its dialogue mechanisms. Dialogue mechanisms are structured around priorities and timing and foresee events where young people discuss the agreed themes among themselves and with policy-makers, youth experts and representatives of public authorities in charge of youth in order to obtain results which are useful for policy-making.

Projects can take the form of meetings, conferences, consultations and events promoting the active participation of young people in democratic life in Europe and their interaction with decision-makers. As a concrete result of these events, young people are able to make their voice heard (through the formulation of positions, proposals and recommendations) on how youth policies should be shaped and implemented in Europe.

A project can comprise one or more of the following activities:

- national meetings and transnational/international seminars that offer space for information, debate and the active participation of young people – in dialogue with youth decision-makers – on issues which are relevant to the EU Youth Strategy and its Dialogue mechanisms;
- national meetings and transnational seminars that prepare the ground for the official Youth Conferences organised during each semester by the Member State holding the turn of Presidency of the European Union;
- events that promote debates and information on youth policy themes linked to the activities organised during the European Youth Week;
- consultations of young people, with a view to find out their needs on matters relating to participation in democratic life (online consultations, opinion polls, etc.);
- meetings and seminars, information events or debates between young people and decision-makers / youth experts around the theme of participation in democratic life;
- events simulating the functioning of the democratic institutions and the roles of decision-makers within these institutions.

Eligibility criteria for support from the Erasmus+ Programme

Eligible partner: A non-profit organisation, a European Youth NGO or a public body at the local or regional level.

Who can apply? Any participating organisation based in a Programme Country

Origin of partners: Partners can come from Programme Countries or Partner Countries neighbouring the European Union. Each project must have at least one partner from a Programme Country.

Minimum number of partners: One partner for national meetings and at least two partners from two different countries for international meetings.

Participants: A minimum of 30 young participants, aged between 13 and 30. If the project foresees the participation of decision-makers or experts in the youth policy field, they can be involved regardless of their age and country of residence.

Project duration: From 3 months to 2 years.

Duration of project activity: Minimum 1 day.

Venue of the activity: National meetings must take place in the country of the applicant organisation. Transnational/international meetings may take place in any of the Programme Countries involved in the project.

WHO IMPLEMENTS THE ERASMUS+: YOUTH IN ACTION PROGRAMME?

The overall responsibility for the Erasmus+ Programme lies with the European Commission. The European Commission's Education, Audio-visual and Culture Executive Agency is responsible for the management of the centralised Actions of the Erasmus+ Programme, including Capacity-building in the field of youth.

A large part of the Programme is managed in a decentralised way by the National Agencies in each of the Erasmus+ Programme Countries. The National Agencies manage the selection of projects, as well as provide Programme beneficiaries and those who are interested in applying for project grants with information and support concerning the Programme.

In addition, a network of six SALTO-YOUTH Resource Centres assists the National Agencies and other stakeholders in supporting quality in Erasmus+: Youth in Action projects and further developing European youth work and youth policies. Through their work in priority areas in the European youth field, they provide resources, information, training and networking activities as well as foster the recognition of non-formal learning in youth work. Besides three topic-based SALTO Resource Centres, three regional SALTO Resource Centres provide support for the implementation of the Erasmus+: Youth in Action Programme in and with the Programme's Neighbouring Partner Regions (South Mediterranean, Eastern Europe and Caucasus and the Russian Federation, Western Balkans)

The Eurodesk network offers information services to young people and those who work with them on opportunities in the education, training and youth fields in Europe, also regarding the Erasmus+: Youth in Action Programme.

ELIGIBLE COUNTRIES

Programme Countries

- **EU Member States:** Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden and the United Kingdom.
- **Non-EU Programme Countries:** Iceland, Liechtenstein, Former Yugoslav Republic of Macedonia, Norway, and Turkey.

Partner Countries neighbouring the European Union

- **Western Balkans (Region 1.):** Albania, Bosnia and Herzegovina, Kosovo³ and Montenegro.
- **Eastern Partnership countries (Region 2.):** Armenia, Azerbaijan, Belarus, Georgia, Moldova, Territory of Ukraine as recognized by international law

³ (This designation is without prejudice to positions on status, and is in line with UNSCR 1244 and the ICJ Opinion on the Kosovo declaration of independence).

- **South Mediterranean countries (Region 3.):** Algeria, Egypt, Israel, Jordan, Lebanon, Libya, Morocco, Palestine, Syria and Tunisia.
- **Russian Federation (Region 4.):** territory of Russia as recognised by international law

Other Partner Countries (Regions 5 – 14): Other Partner Countries of the world as defined in the Programme Guide.

APPLICATION PROCEDURE AND ASSESSMENT

Applications for funding of projects from the Programme are submitted using electronic application forms, with several deadlines for applications every year. Before the first application, each organisation must acquire a Participant Identification Code (PIC) by creating a profile for the organisation on a special portal of the European Commission. More information on the application procedure, application forms and deadlines and all the necessary documents (including the Programme Guide of the relevant year) can be found on the websites of National Agencies, the Education, Audio-visual and Culture Executive Agency and the European Commission (see website links at the end of this document).

In Erasmus+ Programme Countries, projects are submitted primarily to the relevant National Agency in the applicant's country. Applications for the centralised Actions of the Erasmus+ Programme, including the projects granted within the Youth Windows, are submitted to the European Commission's Education, Audio-visual and Culture Executive Agency (EACEA).

In addition to the eligibility criteria specific for each Action and / or activity type, project proposals are assessed according to the award criteria reflecting the quality aspects of the proposal. The institutions responsible for the selection also carry out the assessment according to the specific exclusion and selection criteria to ensure the applicant fulfils the financial regulations of the European Union and has sufficient financial and operational capacity to complete the proposed project.

The financing mechanisms and funding rules applicable within the Erasmus+ Programme are listed in the Programme Guide of the relevant year.

APPLICATION DEADLINES 2019

- **Key Actions 1 (Youth Mobility Projects), 2 (Strategic Partnerships), 3 (Youth Dialogue Projects):**

5 February, 30 April and 1 October 2019, to the National Agency for Erasmus+, youth field, in the applicant's country of residence

- **Key Action 2, Capacity-building projects:**

24 January 2019, to the Education, Audiovisual and Culture Executive Agency (EACEA) in Brussels

IMPORTANT FEATURES OF THE ERASMUS+ PROGRAMME

The Erasmus+ Programme contains important features which are described below with specific reference to cooperation in the field of youth.

Recognition and validation of skills and qualifications

The Erasmus+: Youth in Action Programme strives for a greater recognition of the competences and skills acquired in non-formal learning through participation in different forms of youth work. For this purpose, the Programme offers the European tool Youthpass, which allows structured documentation and (self)-assessment of the competences acquired in projects. In addition to this, the Youthpass also functions as a certificate of the accomplished learning results. All participants of projects supported by the Erasmus+: Youth in Action Programme are entitled to receive a Youthpass. The certificates are created by the project partners, while National Agencies provide information and trainings on how to issue Youthpass certificates.

Dissemination and exploitation of the project results

The dissemination and exploitation of project results is one of the key phases in the lifecycle of projects in the framework of the Erasmus+: Youth in Action Programme. Participating organisations are encouraged to make the results of their project known to the public – such as the local community, other organisations, policy makers etc. - and in this way to increase the impact of their project and its sustainability. The level and intensity of the dissemination and exploitation activities should be proportional to the scope of the project and its objectives.

Open access to educational materials and documents

The Erasmus+: Youth in Action Programme promotes open access to materials and media produced as a part of projects within the Programme that are useful for youth work. The project organisers should promote the availability of such products by making them freely available (on the internet). They can however, define the most appropriate level of open access. The open access requirement is without prejudice to the intellectual property rights of the grant beneficiaries.

International dimension

Erasmus+: Youth in Action includes a strong international dimension, which is demonstrated by the possibility of cooperation with Partner Countries within all of the Programme's Key Actions. However, in some cases, their participation must provide a clear added value for the project.

Multilingualism

The promotion of language learning and linguistic diversity is highlighted in the Programme, as the lack of language competences is one of the main barriers to international learning mobility.

Equity and inclusion

The Erasmus+: Youth in Action Programme is open to ALL young people, including young people with fewer opportunities. The Programme aims to encourage them to use the opportunities it offers to strengthen their skills and competences through non-formal learning in youth work and to make their voice heard in the shaping and development of youth policies at the local, national and European level.

The definition of young people with fewer opportunities can be fairly broad, but the group definitely includes young people whose unfinished education or its low level leaves them with reduced possibilities on the labour market, those growing up in difficult social and economic conditions and those who are

facing greater obstacles in their integration into society due to their cultural background, personal circumstances or facing other similar constraints.

To facilitate the inclusion of young people with fewer opportunities or special needs, the Programme offers the possibility of covering 100% of the eligible costs and including additional costs according to specific needs without which it would be hard or impossible for young people with fewer opportunities to participate in a project.

Protection and safety of participants

The protection and safety of participants involved in Erasmus+ projects are important principles of the Programme. Each participant should be able to take full advantage of the possibilities for personal and professional development and learning. This can only be ensured in a safe environment which respects and protects the rights of all.

To this end, each participating organisation must have in place effective procedures and arrangements to promote and guarantee the safety and protection of the participants in their project. In this regard, all participants involved in a mobility activity under Key Actions 1 or 2 must be insured against the risks related to their participation in these activities.

Organisations which involve young people under 18 years of age are required to obtain a prior authorisation of participation from their parents or those acting on their behalf.
