

Call for municipalities to develop youth strategies in the context of the European platform Europe goes local (for Bosnia and Herzegovina and Kosovo*)

The SALTO South East Europe Resource Centre is looking for municipalities in Bosnia and Herzegovina and Kosovo* which are interested in establishing or further developing their strategies in the field of youth at the local level and integrating a European dimension into their approaches and activities.

(This is a continuation of the call published in April 2022 targeting Albania, Bosnia and Herzegovina, Kosovo* and Montenegro)

Background

The [SALTO South East Europe Resource Centre](#) (SALTO SEE) was established by the European Commission to support cooperation with the Western Balkan countries in the frame of the Erasmus+ Programme (youth field) and the European Solidarity Corps. Through the support for these programmes SALTO SEE aims at European cooperation in the field of youth and at contributing to the wider development and recognition of youth work and volunteering in the Western Balkan region.

[Europe Goes Local](#) is a platform and a strategic cooperation between different countries within the two Programmes. Its mission is to strengthen the youth work community of practice at the local level, in line with the [European Youth Work Agenda](#), which was established during the German Presidency of the Council of the European Union and the German Chairmanship of the Committee of Ministers of the Council of Europe in 2020 and which aims at strengthening and further developing youth work practice and policies in Europe.

The Europe Goes Local platform brings together different partners (both governmental and non-governmental) involved in the development of youth work at the local level in several European countries for dialogue and cooperation. In its core are various learning and networking opportunities, which are organised nationally and internationally every year. Municipalities in Europe are the core target group of the cooperation.

Key objectives of “Europe Goes Local” are to:

- build bridges between the local and European levels, including municipalities in rural areas;
- strengthen the dialogue between their stakeholders;
- provide local youth work with the European programmes and cooperation;
- make the European dimension an integral part of local youth work provision;
- offer tools and opportunities for local stakeholders to collaborate and develop common projects;
- recognize and promote European best practices with the purpose of peer-learning.

Piloting “Europe Goes Local” in the Western Balkan countries

SALTO SEE joined the platform in 2021, when the key document, the [Charter for local youth work](#), developed by the platform was translated into the local languages of the countries of the Western Balkan region.

This call addresses municipalities, which are interested in joining the pilot phase of the Europe Goes Local initiative in the Western Balkan countries coordinated by the SALTO South East Europe Resource Centre in 2022. The cooperation is foreseen to continue in 2023 and beyond. The piloting phase is based on stimulating the development of the selected municipalities’ own youth strategies by offering support in the frame of the Europe Goes Local, in particular by:

- making available and providing assistance in the adoption of the key tools developed within Europe Goes Local, the Charter for local youth work and the [Change-makers’ kit](#) connected to the charter;
- offering possibilities for networking and exchange with other municipalities in the Western Balkan countries;
- offering possibilities for training and networking in the wider European context on specific topics relevant for local youth work and its European dimension;
- offering expert consultation and advice for the municipalities on based on their specific areas of interest;
- offering more information about the Erasmus+ Programme (youth field) and the European Solidarity Corps and how they can be promoted and used by municipalities.

The participating municipalities are expected to set up or take concrete steps forwards in developing and implementing their youth strategies in 2022 and to actively participate in the communication with and support measures by SALTO SEE to facilitate the process. The process will take into account and aims to connect to already existing work and support frameworks in the different national or local contexts.

The following concrete support measures are planned in 2022:

- ***An online kick-off meeting*** for the cooperation organised by SALTO SEE **on 16 and 19 of September at 14 – 17.** (The applicants are asked to reserve these dates, since the presence is mandatory).
- Facilitated strategy development and needs analysis as well as individual consultation session in **September - December**. During this time the municipalities will prepare their strategic plans with the help of an expert;
- ***A two-day residential working meeting*** organised by SALTO SEE in **December (the exact dates will be specified with the selection results)** with the participating municipalities to present their strategies and plans for implementing them, exchange information and experiences, network and make future plans for cooperation;
- Possibility to take part in **international study visits and project labs (the calls for participants will open at a later stage)** organised in different European countries on various topics within Europe Goes Local.

Selection criteria

The selected municipalities should have a department responsible for youth and equivalent means (legal framework, funding and human resources) to set up a strategy in the field of youth and implement measures to achieve its objectives. Additionally, the municipalities should:

- have prior experience in developing and implementing strategic measures at the local level in the field of youth;
- be interested in the further development of their youth strategies at the local level and integrating a European dimension into them;
- have (a) staff member(s) capable of communicating in English and willing to take part in the communication, networking and training activities within Europe Goes Local;
- be interested in promoting and taking part in the Erasmus+ Programme and European Solidarity Corps and the possibilities they offer for international cooperation in the field of youth;
- Preferably have established relationships with other actors in the field of local youth work, such as youth and civil society organisations, youth networks and representative bodies and other relevant governmental actors.

Application procedure, enquiries and contact details

Interested municipalities are invited to express interest by filling in the [application form](#) by **8 September 2022**. The selection results will be communicated to all applicants by **14 September 2022**.

Interested municipalities are encouraged to contact the SALTO South East Europe Resource Centre during the application process for any further questions.
