14th Sep - Departure day

The training course will contribute to developing youth workers' "Managing Resources" competence based on the ETS Competence model for youth workers to work internationally:

**Objectives:**

- Increase understanding how to raise resources for international youth work projects
- Develop knowledge of budgeting and fundraising tailored to youth work contexts
- Enhance skills to adapt programme design to available resources and changing contexts
- Learn ways for co-management, shared responsibility, and involving youth in budgeting and creative resource management
- Foster attitudes that promote risk-taking and recognition of young people's efforts

Co-funded by  
the European Union
