## THROUGH ASH AND BLOSSOM

THROUGH ASH AND BLOSSOM is an international program aimed at people who are, or strive to become, agents of cultural (r)evolution and social transformation. Humans who, with their daily actions, are models in their community and leaders of the awakening and change in the world. People who are ready to turn their look inwards and explore everything – light and dark - that is in their hearts and souls.

## PROJECT RATIONALE

Reconnecting with nature is fundamental to human and planetary well-being and to the future of the global ecosystem. In the last 2000 years, we have been increasingly alienated from their natural environment. Many of us have forgotten the language of Intuition, Mystery and the Wild World and replaced it with the language of science and technology. Fewer and fewer people turn to the wisdom of Dreams, Natural cycles, the Cosmos and the Forest, and fear them more and more. Nature which created us seems to have become a warehouse for goods and things. Many of the crises and challenges we face - wars, intolerance, genocide, ecological catastrophe, mass extinction of species, social inequality, violence are a result of the narrative of Superiority, and the same is the case for many of the unhealthy behaviors: consumerism, entitlement, conformity and materialism..

# THE NEED

Re-establishing the connection of humans with the natural world is an essential step in solving many of today's social, economical and health problems.

Raising the awareness of youth and social workers, psychologists, and educators about the ecological role of humans and humanity is a guarantee for the ecological awakening of future generations. Thus breaking the chains of (patho)adolescent life-destroying materialistic economy and evolving into mature adult life-enhancing culture of environmental justice, spirituality, compassion, acceptance.

By offering an eight day intensive immersion program, we are creating a space for connecting with the wisdom of Nature, the forgotten ways of intuition, vision, dreams and the deep human and more-than-human connection.

Living connected with Nature means to be rooted in one's deep purpose, somatic and emotional intelligence, wisdom of the heart and gratitude to all living and non-living beings of the Cosmos where we fully belong.

# FOR WHOM...

For ***THROUGH ASH AND BLOSSOM***, we are inviting the ones who are sensing that life has taken them to an edge, a time of transformation. Are you getting ready to step into your full power, and to bring your most authentic gift to the world? Are you feeling that something is shifting inside of you, that it is time for you to let go of old roles, restraints and patterns of behavior, to cross a threshold, and to let go of what has kept you safe and quiet? Are you longing for something more, something deeper - even though your life looks perfect from the outside? Are you maybe even considering to leave everything behind and go out in the world to become someone new? If so, we are inviting you to apply for this course.

***At the core of the program, we will create time and space for deep and prolonged connection with the wild others. Participants will be invited to stay alone in Nature for 24h of wild conversation, prayer, deep listening and all else that might arise. You will be invited (optional) to fast during this time, and to stay without a tent, fully exposed to the mysteries of the world. There will be safety measures in process in order to ensure that everyone returns physically safe and wildy dangerous.***

## SOMETIMES

Sometimes, when a bird cries out,  
Or the wind sweeps through a tree,  
Or a dog howls in a far off farm,  
I hold still and listen a long time.

My soul turns and goes back to the place  
Where, a thousand forgotten years ago,  
The bird and the blowing wind  
Were like me, and were my brothers.

My soul turns into a tree,  
And an animal, and a cloud bank.  
Then changed and odd it comes home  
And asks me questions. What should I reply?
