TRAINING COURSE STORY

In a world where professions evolve faster than ever, young people often stand at a crossroads — unsure which path to take.

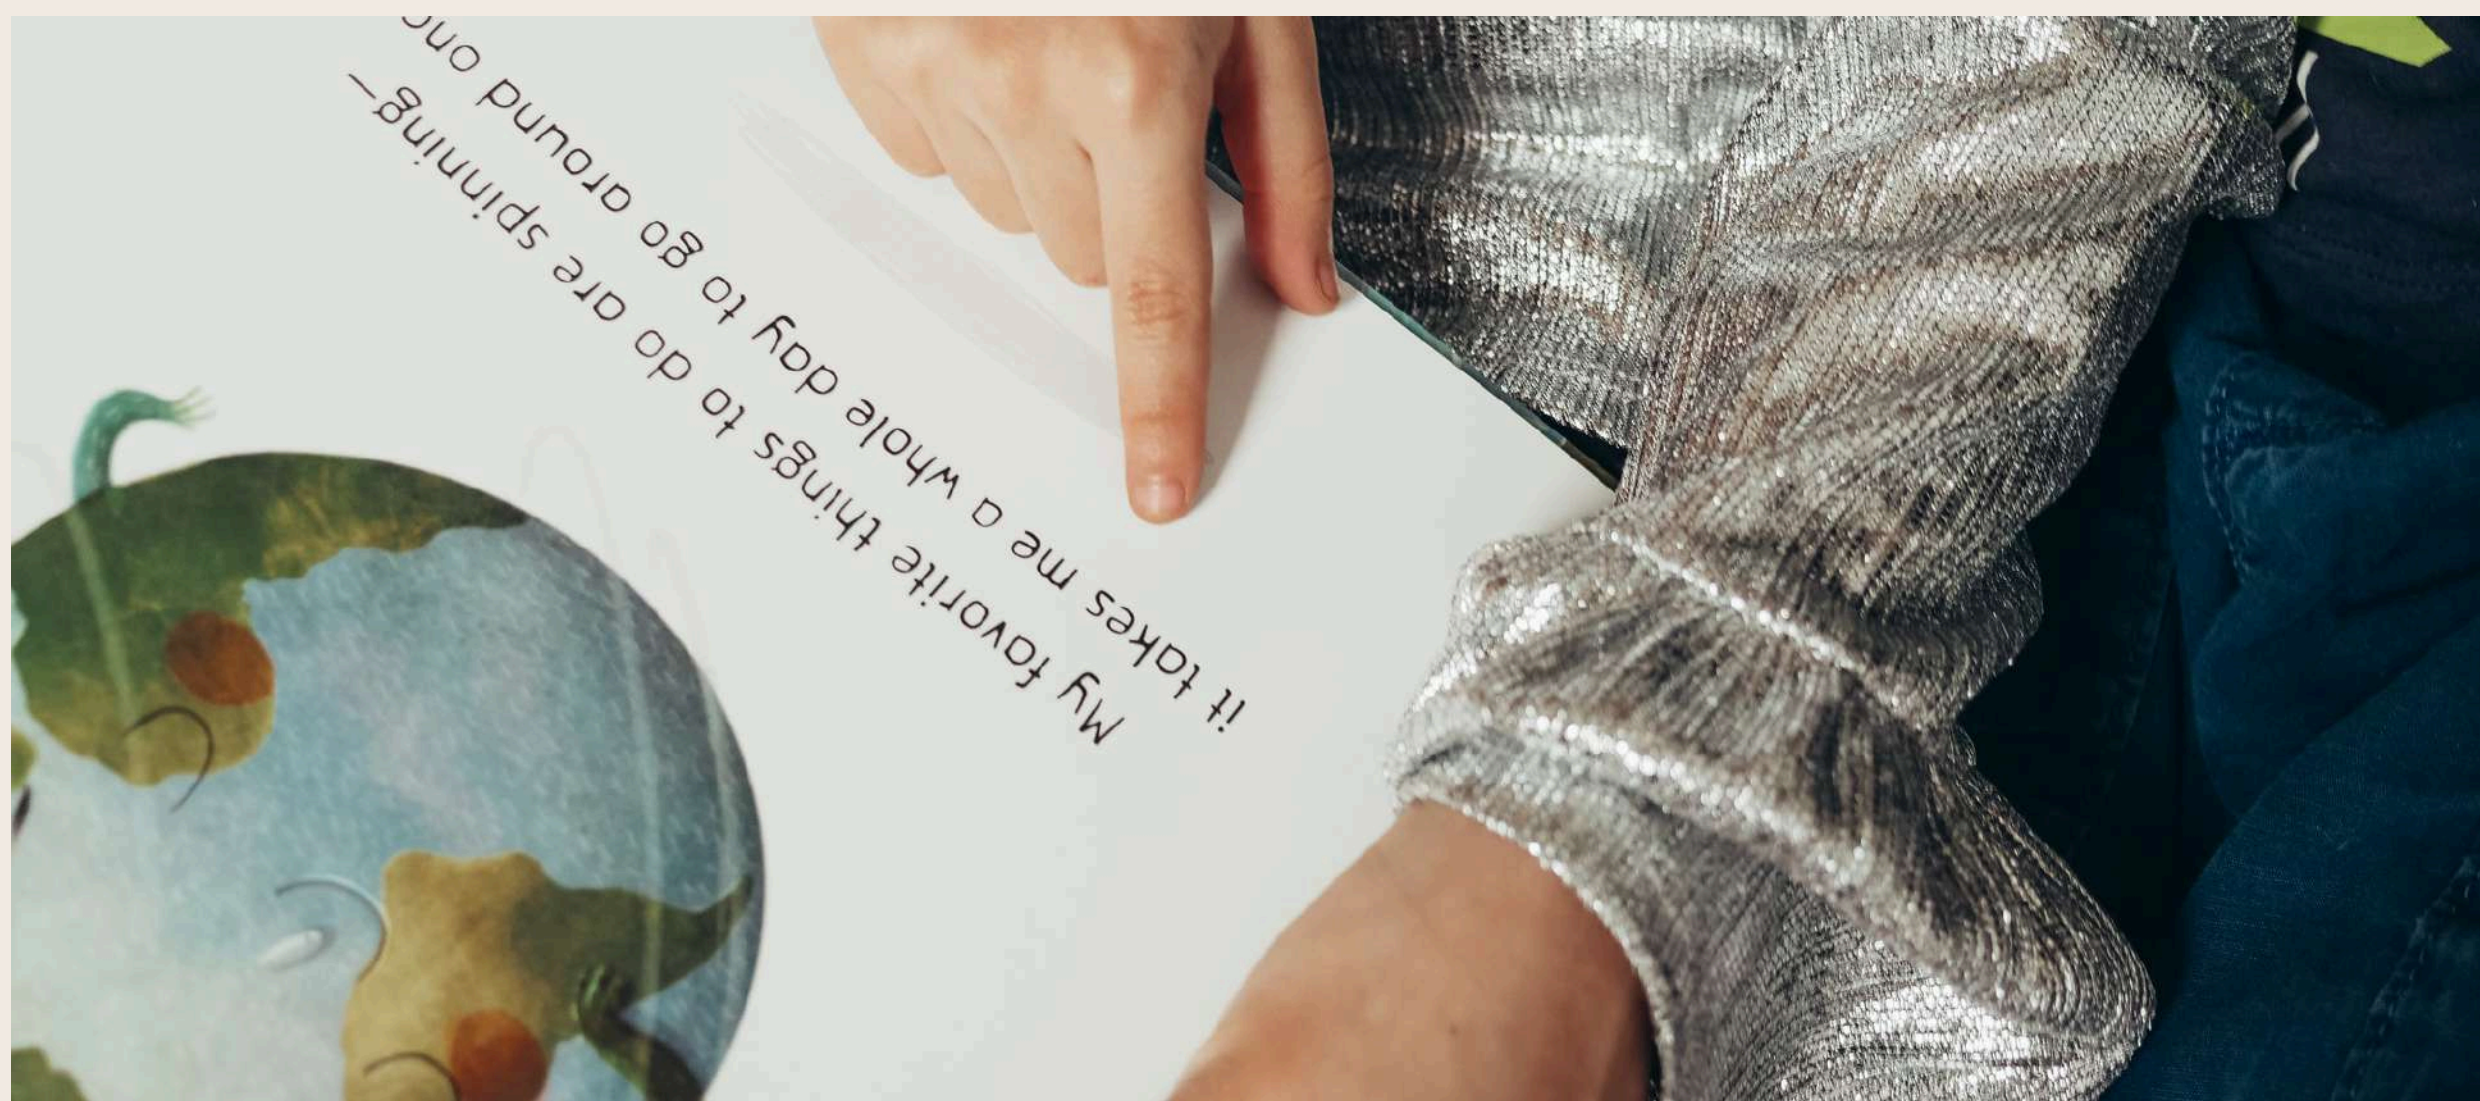

Some dream big but lack guidance, others have skills but no direction, and many feel overwhelmed by the complexity of the modern labour market.

Path to Success project address these needs becoming a journey of discovery, guidance, and empowerment.

Imagine a young person preparing for their first job interview, facing questions they've never heard before, trying to turn anxiety into confidence.

Now imagine a youth worker beside them — trained, equipped, and inspired — guiding them through interactive activities, self-reflection, and even a game that turns the stress of an interview into a fun, empowering experience.

That's the story this project aims to create across Europe.

Through the project we aims to responds to one of Europe's most urgent challenges: the growing gap between young people's skills and the real needs of the labour market.

In a time of technological acceleration, economic uncertainty, and changing job dynamics, too many young people struggle to find their place in the workforce.

Through creative, non-formal, and interactive methods, Path to Success aims to make career guidance accessible, modern, and human-centered.

PROJECT AIM & OBJECTIVES

The project's mission is to help bridge that gap by empowering youth workers — the people who guide, motivate, and inspire young generations — with innovative tools for career counseling and employability skills development.

OBJECTIVES:

1. Equip youth workers with practical skills to use the Career Counseling Program, Job Interview Card Game and Training Toolkit.
2. Strengthen youth workers' competences in delivering effective career guidance.
