INFOPACK

“GreenComp in Action –
Sustainability Skills for Youth Work
and the Labour Market”

Training course

To explore how sustainability competences
can be applied in everyday life, youth work
and the changing labour market.

Barcelona, Spain
11.11 - 18.11.2026

What's it about?

GreenComp in Action is a practical training course designed for youth workers and based on GreenComp – the European Sustainability Competence Framework, which supports the development of the knowledge, skills and attitudes needed to live, work and act sustainably. During the seven-day training course in Barcelona, participants will follow an intensive programme combining interactive workshops, non-formal education methods, experiential learning, practical exercises, teamwork, peer exchange and structured reflection.

Participants will explore GreenComp's four interconnected competence areas: embodying sustainability values, embracing complexity in sustainability, envisioning sustainable futures and acting for sustainability. They will work with the framework's 12 competences, including systems thinking, critical thinking, problem framing, futures literacy, adaptability, collective action and individual initiative.

Where and when?

11 - 18 November 2026
Barcelona, Spain

Apply until

12 October 2026

PROJECT DETAILS

What will the tc look like?

The training course is grounded in non-formal education principles and experiential and transformative learning approaches. The initial phase focuses on creating a safe and supportive learning environment, building trust among participants and establishing group cohesion. Participants will explore the foundations of non-formal education and sustainability learning, become familiar with the GreenComp framework, and reflect on the role of youth workers in supporting young people to think and act sustainably. As the training progresses, participants will deepen their understanding of GreenComp's four competence areas through active learning, simulations, role plays, group challenges, real-world case studies, outdoor activities and reflective exercises.

In the later stages of the programme, participants will apply their learning through a practical GreenComp Action Lab. Working in teams, they will identify a real sustainability challenge affecting young people, workplaces or local communities, analyse its causes and interconnected elements, examine the needs of different stakeholders, envision alternative sustainable futures and co-create a practical response.

On the final day, participants will reflect on and evaluate their learning journey, develop personal and professional commitment plans, and prepare GreenComp-based activities or local actions to implement after the training.

PROJECT DETAILS

The activity is rooted in Youth Goal #6:
Quality Learning

It contributes to:

1. Ensuring young people have access to high-quality, relevant non-formal learning experiences that develop key competences for life, active citizenship and work.
2. Promoting innovative, competence-based learning approaches that help youth work and education systems respond to the demands of the green transition and the changing labour market.

PROJECT DETAILS

Further goals of the project

1. To strengthen futures literacy, adaptability and exploratory thinking, enabling participants to envision sustainable professional and community futures.

2. To strengthen participants' ability to move from awareness to action through political agency, collective action and individual initiative.

3. To connect sustainability competences with employability, green jobs, entrepreneurship and organisational development, exploring how the green transition is reshaping the labour market.

4. To support participants in identifying real sustainability challenges and co-creating practical, locally relevant responses through the GreenComp Action Lab

5. To strengthen participants' systems thinking, critical thinking and problem-framing skills, including the ability to critically assess sustainability-related information and recognise greenwashing and unsustainable practices.

6. To introduce participants to sustainability competence within non-formal education, using GreenComp as a common European reference framework, and to develop their understanding of its four competence areas and 12 interconnected competences.

GOALS

In

We are expecting you on the 11th of November 2026 in the afternoon (between 17:00 and 19:00 o'clock).

The Welcome Program start will be arranged with the trainers based on arrival time of the participants, and dinner will be served between 19:00 - 20:00h.

and out

The departure is envisioned for the morning of 18th of November 2026 after breakfast.

TIMING

Barcelona, Spain

11.11 - 18.11.2026

Participants are expected to attend the full duration of the Training Course

11th - 18th November 2026

TRAVEL

For all information about booking your tickets and coming to Barcelona, you should be in contact with **Veronica Bracaccini** – in charge of project logistics, by using the official project e-mail (you can find all contacts below).

We are kindly asking you to choose the ecologically and economically friendly means of transport, if possible.

Sustainable means of transport (green travel) is defined as the travel that uses low emissions means of transport for the main part of the travel, such as bus, train or carpooling.

Participants must keep all travel documents (tickets, travel agency invoices and boarding passes) as organizers are able to make any reimbursement only on the bases of presented documents!

A detailed guide to reimbursement will be provided.

Please don't buy your tickets before we approve them!

When you will plan your trip and BEFORE buying your tickets (especially if your planned travel itineraries are different than 11th -18th November, please inform us in advance, so we can approve your tickets and travel costs.

P.S. At purchasing your travel ticket, please ask for the invoice

Travel costs will be reimbursed only for the cheapest way of transport and for the return tickets. Travel expenses are covered by the organisers 100% up to the maximum of unit cost per distance calculator and means of travel, including bank transfer and other appropriate fees (for all the original tickets and ways of travel that are plane, bus, train, ferry, carpooling, NOT taxi).

For distances, less than 500 km one way (by Distance Calculator | Erasmus+), the preferable means of transport are land transportations, such as train and/or bus. If other mean of transport is selected for such travels, e.g. airplane, those will be reimbursed 60% of airfare, in accordance with the principle of environmental awareness and protection.

TRAVEL

Travel budget calculation is based on the distance between your starting point and the venue of the program:

10 -99 km	28€ / 56€	green option
100 - 499 km	211€ / 285€	green option
500 - 1999 km	309€ / 417€	green option
2000 - 2999 km	395€ / 535€	green option
3000 - 3999 km	580€ / 785€	green option
4000 - 7999 km	1.188€	
8000 - more	1.735€	

The distance must be calculated according to the official Erasmus+ distance Calculator, which you can find at the following link:

<https://erasmus-plus.ec.europa.eu/resources-and-tools/distance-calculator>

4 Reimbursement

REIMBURSEMENT

The travel reimbursement **will be done by bank transfers only, after you return home** and send us the ORIGINAL boarding passes and tickets (and after you submit/send us the filled in evaluation forms of the training course).

Further Rules regarding the booking of the tickets and reimbursement:

1. Only the cheapest tickets will be reimbursed. We will not cover tickets with the deviation from the direct route (A - B - A), extra unnecessary stops and layovers. We don't cover seat reservation fees, leisure plus tickets, flexible tariff tickets, extra travel insurances, priority boarding fees, local bus baggage, handwritten tickets or bianco nota bills.
2. Extra hand luggage can be covered if within budget (make sure you send a plan before purchasing, as some extra fees might be applied by some airlines).
3. We can't cover travel agencies' fees. Travel agencies invoices for the tickets won't be accepted for reimbursement.
4. We can't reimburse taxi, only public transport and carpooling will be covered. Multiple trips passes/ memberships for transportation are not eligible for reimbursement;
5. You can arrive maximum 1 day before the activity or depart maximum 1 day after if you want to spend more time in Barcelona on your own. In that case, travel expenses must stay within the agreed budget, while accommodation on the extra days is not covered. For green travels, participants can have up to 4 additional travel days.
