Lucca Leadership's Transformational Leadership Programs

Lucca Leadership is a global not-for-profit organisation dedicated to helping young people harness their innate leadership potential, discover their passion and live their vision. Our goal is to support and guide young leaders as they develop the confidence and ability to lead effective transformation in their communities.

Our courses help young people to achieve these ideals in their daily lives by providing tools for increasing awareness, ethical decision making, and engaging in meaningful dialogue.

Participants are introduced to the essentials of transformational leadership, an approach which focuses on creating uplifting change for the good of all. Throughout the programs, participants will have many opportunities to practice and refine their leadership skills as they complete challenging team tasks, share ideas in group discussion, interact with leadership experts, reflect on their own experience, and discover lessons from the lives of transformational leaders. All programmes are led by our accredited leadership coaches with extensive experience in leadership training.

Being a global organisation Lucca Leadership run courses in the UK, Ireland, Australia, North America, South Africa and the Netherlands.

Feedback from a passed participant

"The program was a very inspirational and profound experience. It opened up a whole new way of thinking for me. To have been able to sit down and discuss our concerns for where the world is going and how we can make a difference. It was an absolute privilege. I would recommend this to everyone."
