Training course for multipliers "Step by Step"

As part of the training course you receive a set of social, intercultural and communication skills in the field of international youth work

- especially for youth meetings with young people from Germany and Russia.

You will get to know the diversity of international education and exchanges. In addition, you get to be in touch with the cultures of the other participants. Together you will experience with all your senses the city of Magdeburg.

Main objectives:

- Training and qualification in the field of international youth work
- development of common working standards
- Intercultural and Social Learning
- Promote awareness of similarities and differences
- Reflect on own and others' ways of working
- Raising awareness of existing prejudices and dealing with in youth groups
- Presenting educational core competencies
- And lots of fun!

Topics:

The training course for multipliers will focus on five important areas:

- 1) Geography and lifestyles in different countries
- 2) Structures of youth work in Germany and other countries (visit of several NGOs and institutions)
- 3) Comparison of international youth work concepts
- 4) Methods of intercultural work
- 5) Conflict Management
