About the project

Dear participants, dear partners,

hereby we present you all the information on our common project TC , 'The Change Makers 2 – Sustainable Development through Entrepreneurship Education' which will take place in Sajan, SERBIA from 11th to 18th of May 2015.

The TC is aimed at supporting the fight against youth unemployment sustainably and solving various social problems in order to achieve a more inclusive and sustainable growth in the local society.

Sustainable entrepreneurship education is offering an excellent perspective: just as business entrepreneurs change the face of business, ecopreneurs, social entrepreneurs are the agents of change in their societies, developing ideas and new approaches in dealing with the issues of education, inclusion, environmental awareness, new policy development etc., all leading to changing the lives of people in their local community for the better.

The goal of the TC is to educate and prepare young people who are considering to embark on an entrepreneurial careers to address the issues related to the three pillars that represent sustainable development – Economic Prosperity, Environmental Protection and Social Justice. The TC will prepare its participants for addressing these issues in their local communities innovatively and creatively.

The use of non-formal methods as inputs and discussions in plenary sessions, exercises and simulations, thematic working groups and workshops and the use of open space methodology will provide the foundation for the participants' learning processes. Emphasis will be given to the exchange of entrepreneurial and non-formal educational practices and networking among the partners and with the local community of Sajan.

The TC will include participants from Germany, Albania, Czech Republic, Romania, Italy, Macedonia, Bosnia & Herzegovina, Croatia, Serbia and Kosovo.

Since this project will be in line with the 1st version "The Change Makers: Youth generating inclusive growth – Social entrepreneurship through Non-Formal Education", you can get an impression here

The Trainers

EVELINA TAUNYTE

I work as an initiator, consultant and trainer in various projects in EU, Caucasus region, Middle East and Turkey. Creativity and community art, cultural diversity, youth participation and personal development are my main themes. My PhD is from the streets. Although I graduated with M.A. in Social Work in Germany, I believe that my most valuable insights came from working and living experience. I consider myself partially an „Aussteiger“ (this is a good way to start learning German, if it is new to you), somebody permanently seeking ways how to combine the wish for a simple well-being with the requirements of the modern industrialized life. I have caused some urban storms in Vilnius in form of initiating and facilitating a movement reclaiming public spaces and contributed to discussing and developing various ideas of alternative and ecologically sustainable living forms. I proclaimed 1st of June an „International Day of the Right to be Lazy“ not because I am a lazy person, but more because I believe that everybody should have the right to determine what and how much they would like to work. One way to make it happen is to be a Change Maker! If you do or don't know what I mean - you should come to this TC in Sajan.

And here is a link to my profile as a trainer, in case you need it

NERIJUS KRIAUCIUNAS

I am born in Lithuania, lived in Zurich (Switzerland), Ljubljana (Slovenia), Barcelona (Spain), Yogyakarta (Indonesia). Now came back to Vilnius (Lithuania). Being inspired by the developments of Mozilla Open Badges (<http://www.openbadges.org>) I co-founded Badgecraft (<http://www.badgecraft.eu>). Badgecraft offers tools to recognise learning and achievements in the wide range of contexts.

I practice entrepreneurship through co-managing the Training centre Daugirdiskės and the training and education organisation Nectarus. I work as freelancer delivering coaching and training in the youth work field at local and European levels. Mostly, but not exclusively I work with European Erasmus+ Youth in Action mobility programme.
