## **Short description of the project:**

### **“Roma Genocide-Part of European History”**

*In many totalitarian countries minorities were not considered of the perfect race, or did not fit into the ideology of the totalitarian societies. The Roma were seen by the Nazis as being inferior, they were not as good a human being as the superior race and in October 1939 all Roma were ordered to be sent to concentration camps. A number of the deported Sinti, Roma also had to perform slave labour for the German arms industry. The people were ruthlessly exploited as workers before they were ultimately murdered. Forced labour up to twelve hours a day and more, hunger and terror. During this period, Roma were subjected to genocide and totally denied of their civil rights. An estimated 500,000 European Roma and Sinti were murdered during the Holocaust*

*The project Roma Genocide – Part of the European History is coordinated by Roma Youth Centre, in partnership with 6 other civil society organisations and supported by Europe for citizens. The project has been started to be implemented since September 2014 and it lasts till December 2015.*

*The aim of the project is to raise awareness about the Roma genocide and the annihilation through forced work stimulating the critical thinking and debate of young Roma and Non Roma people, their reflection and understanding of history and antigipsism.*

*The project uses innovative methods such as live library, theatre, music, art, social media, exhibitions, etc. that can gather lot of people and attract public interest. It is consisted by international and local activities in 7 countries (Macedonia, Romania, Portugal, France, Hungary, Germany and Slovenia).*
