**Dream it, Do it** is a Personal development training focused on self-empowerment and accountability as the ways to create fulfilment in our lives.

Our goal is to support the people who work with people in order to have different alternatives and tools to empower themselves and at the same time to support the youngsters in their communities to make the best of their skills, talents and hobbies and to seize the reality as a place full of possibilities and alternatives while enjoying their lives.

We do this project in order to create an inspiring space for people who work with people from different European countries. We offer a place where the participants will exchange experiences and create accountability to empower the youngsters from their communities to achieve their goal, both professionally and personally.

There will be 17 youth workers, residents of Spain, Romania, Croatia, Bulgaria, Lithuania, Czech Republic, Italy and Greece

The youth workers should be;
