17<sup>th</sup> – 24<sup>th</sup> September, 2017

Mollina, Spain

Organized by:

**DYPALL**

Co-funded by the  
Erasmus+ Programme  
of the European Union

## Background & Context

DYPALL stands for **Developing Youth Participation at Local Level**, and as a network, it started its development in 2011, with the purpose of fostering the potential of young people to be active citizens and actors of real social change in their local communities, as well as in their regional and international realities.

Our experience strengthened our belief that involving young people in decision making is a key driver to empower them and to increase their sense of belonging and active citizenship. This involvement should include not only the support from local authorities to activities targeting young people, but also a broader dimension, where youth has an active voice and is a fundamental actor of the development of their local communities.

The network itself is built on the principles of creating an effective and sustainable involvement of youth on decision-making with and in cooperation with local authority's demands, as well as willingness and commitment from both parties, but also the development of knowledge, sharing of experience and tools to create and to develop further these spaces of shared decision-making. This demands the development of strategies, building structures and relations of trust and cooperation between actors. This necessity and the similar experiences of several partners, made visible the common need to **establish a network that could work in a stable and systematic way on themes of common interest and strengthen the cooperation among local authorities (LA), civil society organisations (CSO) and young people, where the creation of mutual understanding and learning spaces are the main goals.**

Among a wide range of diverse but complementary activities implemented by and with its members, DYPALL Network has involved and strengthened the cooperation among municipalities and organisations working in the field of youth at local level. These initiatives and all the different local, national and European experiences strengthened our common understanding that it is crucial to develop a new culture of youth participation, especially regarding the decision-making processes on issues of direct concern and interest of youth. It is essential to look at youth as a forceful and creative source of solutions for our societies that can largely contribute for their sustainable development.

## About University on Youth and Development

The University on Youth and Development (UYD) is an activity jointly organized by the North-South Centre of the Council of Europe (NSC) and other international youth organisations and youth serving organisations.

Since its first edition in 2000, the University takes place once a year bringing together representatives of youth organisations and youth movements from all over the world who gather in CEULAJ (Euro-Latin-American Youth Centre) to discuss, train and be trained as well as to take political action around the main issues on the global agenda.

In addition to the organisations' own activities, every year a joint theme focusing on a specific, relevant issue is providing space for the approximately 200 participants - coming from each corners of the world - to interact and work together. The joint activities are creating intense debates among young people, thus enriching their learning experience and broadening their perspective. This year, 'Developing global identities' will be the focus.
