lecturers shared
their good stories

YOUR ORGANISATION

- has significant experience with hosting or sending volunteers on EVS projects;
- coordinates EVS projects for other receiving or sending organisations (associations and public institutions);
- sees potential to expand a network of EVS organisations in local community;
- wants to share experience, hear other experiences, get inspired and have AHA! moments!

THAN THIS TRAINING COURSE IS FOR YOU!

THROUGH 5 WORKING DAYS PARTICIPANTS WILL:

share and explore different practices and realities;

improve skills in the field of coordination activities;

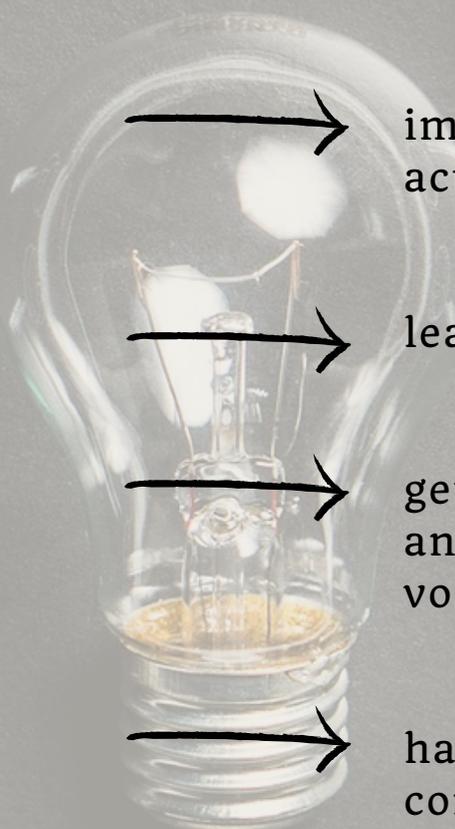

learn from Lithuanian experiences;

get updates on recent developments in Erasmus+ and European Solidarity Corps regarding volunteering projects;

have direct support and opportunities for consultations and feedback from NA officers regarding their project ideas.

THIS SOUNDS GREAT! WHAT DO I NEED TO DO NEXT?

- get approval by legal representative of your organisation;
- contact National Agency in your country or SALTO Resource Centre responsible for your region and ask them to support your participation;
- apply via SALTO-YOUTH portal and keep finger crossed;
- follow further announcements and information from hosting National Agency.

AND FEEDBACK FROM PARTICIPANTS?

The knowledge gained from this training course will definitely help us with the process of coordinating other organisations' EVS projects. All participants were experienced and had knowledge in different fields, and the trainers created a very well-balanced training in which there was a lot of space for our own questions.

I have heard good practices that will help me in future. I have got new contacts, met new people and organizations, so I hope cooperation will continue in the future.

I gained some great information from representatives of other organisations that took part on this training. I already have some potential partnership because of this training.

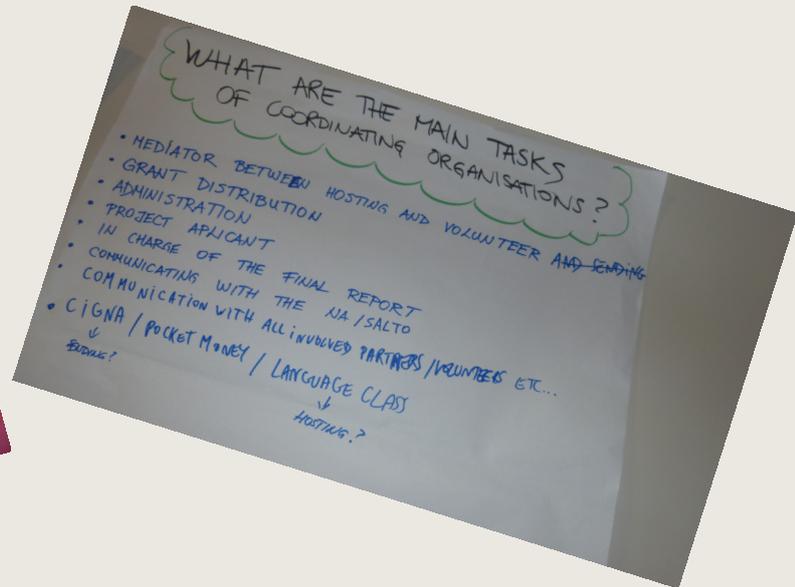

Meeting organisations, both within the training workshops as in person, was very useful to get knowledge of their experience and best practices.

I got inspired by a lot of new ideas, which we hopefully can implement and will help with setting up new partner-relationships.

Meeting organisations, both within the training workshops as in person, was very useful to get knowledge of their experience and best practices.

I am happy that I could participate, and I feel all my questions are answered. It was a great and useful week, thank you for all.

LET'S COORDINATE 2016. AND 2017. IN FEW PICTURES

WHO IS BEHIND LET'S COORDINATE?

INITIAL CONCEPT

Initial concept of Let's Coordinate! training course was developed in cooperation of team of facilitators and Croatian National Agency for Erasmus+ Programme.
