

Enhancing youth participation in local and regional life and community through digital tools

OUR PATH

PREPARATION

If you are selected, you are going to get an infopack that will allow you to get ready for the online course.

Also on the 2nd of December, our first training day there will be a first online session where you can get to know the team, the group of participants and to get familiar with the tools that are going to be used along the course!

TRAINING

The program was designed to have you connected more than once a day and it can be quite intense specially for the ones that are not so used to be kept working and interacting online.

People who decide that they want to participate are going to have opportunities to reflect and explore about their contexts of work when it comes to the online and offline participation of with young people. At the same time the program will provide you the opportunity of exploring the impact of the pandemic in your current context working with young people as well as different online tools, methods and platforms that can support the engagement of the groups of young people you work with and for.

Through the programme you will be asked to prepare some tasks, individually and in group, to share and speak about your own ways of doing and to be an active listener supporting others in their own path and experiences. Meaning that every day, every session your participation will be required 😊

We planned a course bringing different aspects and values of non-formal educational activities and by which you are learning by experience. At the same time the program, its contents and flow can be adapted according to the group's needs, interests and rhythm!

By the end of the course we will invite for a self-assessment session where you will have access to your learning certificate – the [YOUTHPASS!](#)

PROGRAM

Time (Central European Time)	Day 1 2nd December	Day 2 3rd December	Day 3 4th December	Day 4 5th December

TARGET GROUP & SELECTION

- We target people, who are willing to learn and ready to fully experience an online course in a collective and collaborative way!
- We target people that are able to express themselves in English and have fully availability to participate in the entire duration of the course
- We are looking for 35 people from the area of youth work or people who are working directly with young people:
 - Youth workers
 - Trainers, young social educators and young teachers
 - Youth leaders
 - Civil servants with responsibilities in youth departments, youth houses, etc.
 - Policy makers

APPLICATION & SELECTION

Selection will be based on background, interest, motivation and profile.

We will have constant communication with you and general answers are not accepted in the application
