**Democracy Reloading is a brand and a program of the national agencies of the Erasmus+ Youth Program, grounded in the values and principles of democracy, human rights, equality and the rule of law. It is aiming to support municipalities in improving local democracy through engaging young people in decision-making and using Erasmus+ funding. In the last year of the program an online Toolkit was created that is based on a set of 24 competences. The 24 competencies are required for a local (municipal) or regional government to design, implement and evaluate a successful youth participation structure, to engage young people in the decision-making and develop local democracy.*
