Trainers: Olya Khvasevich, Olya Kuznetsova, Erma Georgiou

Main Idea of the Project

We all see that the world is constantly changing now even more than before. The situation young people are facing now is complex, challenging, ambiguous but at the same time full of opportunities.

This PDA will gather youth from different countries in order to equip them with competences, soft skills, adaptability and ability to think out of the box, finding alternative ways and other skills essential for being initiative and having an entrepreneurial mindset. The perfect instrument for this is improvisational theatre.

The aim of the project is to empower young people and to increase the sense of youth entrepreneurship by using tools and methods of improvisational theatre.

Project specific objectives are:

- to develop competences, social skills and entrepreneurial mindset through applied improvisation
- to give an understanding and feeling of Improvisation as a tool for personal development and as a method in youth work
- to introduce and provide basic knowledge and practise on social entrepreneurship
- to provide a space for taking initiative and sharing best practices focusing on non-formal educational methods

The idea is to use a variety of different Non Formal educational methods as well as methods of improvisational theatre.

Active Cypriot Programs and European Learning Into Acceptance, ACPELIA was founded in 2019 in Limassol Cyprus. The part of the European Programs of Cultural Association NOSTOS Pissouriou transferred in a new created organization, the ACPELIA, which will continue with the same OID and PIC number. All the members of Cultural Association are also members of NGO ACPELIA. Main aim of the Association is the rescue, preservation and transmission of cultural heritage, sustainability of the environment, discrimination, social and environmental entrepreneurship, social inclusion, elimination of discrimination and racism and the grant to our members of the chance to involve in themes about Environment, Cultures, Racism, Equality, Democracy and Discrimination. Cultural activities promote social inclusion, human rights and help in the limitation of the discrimination among the generations. To promote the above-mentioned important values, the association is organizing cultural, informative, educational and interactive activities for youth with the new European Programs department of the association. Those activities include dancing, theatre, educational activities with games and action, and other performances where young people can learn about humanity issues through Non-Formal Education.

Our organisation is a volunteering organisation so we don't have any paid staff but we worked all volunteering, when we have approved projects in themes that we work on them then independent contracts are done with the suitable youth workers, trainers and project managers so to be able to make all the activities from these contracts. We have more than 50 youth workers, learners and members of the group who are willing to work with our organisation and who are ready for being employed according to the needs of each plan.

Table of activities and obligations of participants and partners organizations is following in the next page. Also, approximate program of the YE is coming after the next page.

9 organisations, 4 participants from each organisation, 4 stakeholders in Training about social Entrepreneurship

Co-funded by the
Erasmus+ Programme
of the European Union
