ABOUT YOUR HOSTS

Super Tineri - ASIRYS is a non-profit association, established in 2009 in Romania. The organization is well known regionally for its ability to engage young people in volunteer activities, leading them to unique learning experiences and a solidarity mindset.

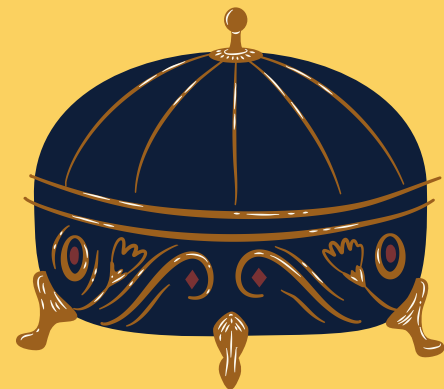

The vision of ASIRYS is to transform Târgu Frumos, a small town in eastern Romania, into a vivid and alternative community where arts join education, building a space of freedom for any young person or citizen interested to get involved for a better world.

WHAT TO EXPECT?

We gonna have fun, but we will also work hard. During the training course, based on the alternative museum methodology, we will create four experiential installations on different topics providing a non-formal learning experience to 120 children and youth from rural area.

The context is non-formal - learning by doing. We will mix. We expect everyone to be active, to share, and be open to learning and connecting with others. We want this experience to build strong partnerships & friendships between us.

The final outcomes depend on the involvement of all of us. The creation process requires patience, resilience, positive attitudes, the capacity to deal with the lack of resources, and kindness to yourself and other.

WHAT TO PREPARE?

a method, an
instrument, a tool
related to art & culture

food, clothes and
artistic moments for
the intercultural
events
+ a flag of your
country/region

an art piece
representing your
local cultural heritage
