**TRAINING COURSE [TC]  
23/10/2023 - 30/10/2023  
BENALMÁDENA, MÁLAGA, SPAIN**

**Co-funded by  
the European Union**

# ABOUT THE PROJECT

The idea of the training course "**EntrepreneurSelf**" is to guide youth workers from **8** different countries who will work with each other in order to defend the importance of **youth entrepreneurship** to develop their business ideas.

The project will also be an opportunity to bring together youth workers and youth leaders who have a special interest in promoting the entrepreneurial **empowerment** of youth workers at the national and international levels, and to create more international projects that can connect different realities and experiences.

Youth work in entrepreneurship is of great importance both in the dissemination of socially and ecologically responsible ideas and in their practical implementation, especially among young and/or young people from vulnerable groups with geographic, social, and economic barriers. By having an entrepreneurial spirit and applying basic principles and elements, we want to ensure that youth workers develop their skills to support young people in making their ideas come true.

This project will provide sufficient information and knowledge based on case studies, best practices, and concrete examples across Europe on entrepreneurship, digital technologies and digital entrepreneurship, entrepreneurs' success stories, the role of NGOs in supporting young entrepreneurs, and concrete methods and tools of informal ones.
