INTRODUCTION

Dear participants,

we are looking forward to meeting you in Italy! On the following pages you will find **important information** about the upcoming Training Course; read it carefully, as everything written in this infopack will be considered as **fully understood and agreed** by everyone

PROJECT SUMMARY

This project focuses on **Non-Formal Education (NFE)** as powerful process that can effectively address the evolving needs of the learners, offering a variety of approaches that ensure **inclusivity** and **empowerment**.

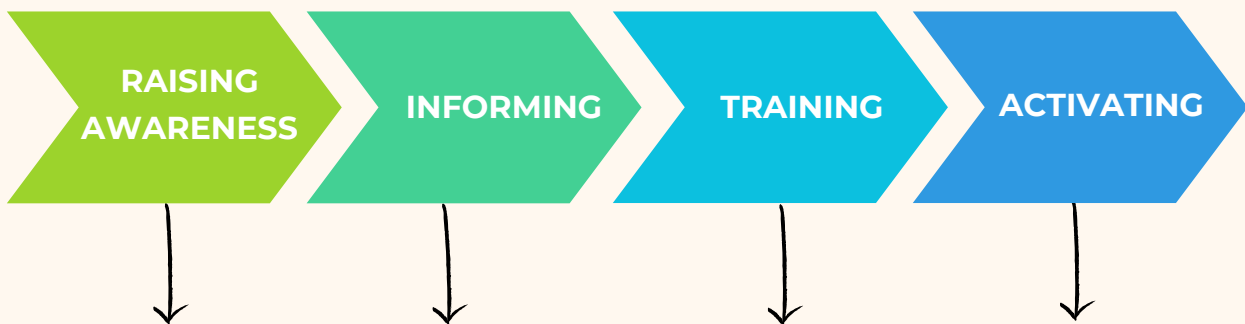

Through NFE principles and practices, the project aims to offer space for **experimentation** and **competence development**, fostering motivation for **lifelong learning**

In this context, our project aims to become a fruitful space to share, **test** and further **develop** NFE tools, methods and techniques in **youth work** practice, specifically focusing on **theatre methods** and performative acts. This is done, first of all, through a **Study Visit** (11-15 March 2024, in Sweden), designed to witness the **hands-on work** of experienced organizations delivering theatre-based activities, and it continues with a **Training Course** (2-8 May 2024), aimed at developing youth workers' **professional competences**, to which this infopack is specifically referred

MAIN OBJECTIVES

Through **NFE methodologies**, our project aims to provide participants with the right tools to support their **learning process** towards **active citizenship**, creating an experiential and inclusive environment. Below the project structure and objectives:

- Understand the principles and importance of NFE in daily work with youth
- Explore elements and characteristics of different educational approaches and models
- Learn about the specific challenges of working with culturally diverse target groups

NGO-level

- Stimulate exchange of good practices at European level

- Provide participants with resources and opportunities to experiment different kind of NFE and theatre methods
- Develop and strengthen youth workers' competences in designing and delivering NFE activities focused on theatre
- Increase youth workers' capacities to adjust and adapt NFE and theatre methods to their local communities

NGO-level

- Build up a stronger network of European youth NGOs working with NFE and theatre-based activities
