# Hosting team

The Active Kids Foundation was established in 2017 to engage children, youth, as well as adults, seniors and entire families in social activities. The organization strives to increase the awareness of local communities, especially in the field of protection of human rights and freedoms and counteracting discrimination against groups such as ethnic and religious minorities, migrants, foreigners and socially excluded people.

Its aim is also to integrate society by undertaking joint initiatives and engaging in regional and international activities. The Foundation places great emphasis on engaging volunteers, thus encouraging young people to gain new experiences, expand their horizons and, finally, break down intercultural barriers and gain a kind of international mobility.

# About the project

24 youth workers and 2 trainers will meet between 10th and 18th of May 2024 in Murzasichle to develop their competencies in methodology for empowering youth through improvisation theater and mindfulness.

Participants will learn principles of improvisation theater, mindfulness techniques and will try to connect those two approaches for youth empowerment.

They will have dedicated yoga activities in the mornings and meditation practices in the evenings.

# Our aim and goal

Our goal is to promote diversity of non-formal educational methodology for youth work to address mindfulness and stress management among young people

The aim of this project is to increase the competencies of youth workers in the field of youth empowerment through improvisation theater and mindfulness methodology

# Objectives

1

developing competencies of participants in using improvisation theater in youth work and education for empowerment and competencies development

2

developing competencies of participants in using mindfulness in youth work and education to reduce stress and anxiety, increase focus on attention, work with emotions and increase self-awareness

3

developing competencies of participants in field of non-formal education and experiential learning

4

developing activities based on improv and mindfulness methods for non-formal education and formal education purposes

5

developing participants competencies, soft skills, supporting the personal and professional growth

6

developing the methods and tools for youth empowerment based on improv and mindfulness

7

promoting social inclusion, youth empowerment, peer learning, NFE

# Methodology

## Improv

Improv is a theater approach where actors develop scenes without a script. Actors are developing the scene based on accepting what is happening around, taking care of the partner and being involved more and more in the action. This background of the improv is a great base to teach about active citizenship and empower youth to take their chance and develop their ideas in real life. Moreover, improvisation activities develop soft skills and attitudes like verbal and non verbal communication, team work, public speaking, self confidence, self esteem, flexibility, adaptation to changing situation, not giving up after failure.

# Methodology

## Mindfulness

Mindfulness is the practice of paying attention to the present moment without judgment. In the context of the training, mindfulness is used to help youth workers develop self-awareness, reduce stress and anxiety, and improve focus and concentration. Participants learn different mindfulness techniques such as meditation, breathing exercises, and body awareness exercises.

# Learning approach

The leading learning approach during the training course would be experiential learning (D. Kolb), participants will go through the learning process which is following the cycle of experience, analysis, conceptualization and practice.

To learn more about the Experiential learning you can take a look at our Methodology Box from Improve e english project:

# Activities

Generally the activities would have three stages: exploring main methods (Improv and mindfulness ), learning about Non - Formal Education (the principles of NFE, how to create the educational workshops) and the practice phase (developing and implementing the workshops by participants).

Daily there would be at least 6 hours of workshops and time for reflection. (everyday we will start workshops at 9:30 and finish around 19 o'clock, with 2 coffee breaks and lunch break). In the morning there would be open Yoga practise and in the evening meditation practise.
