THE VENUE TOWN

Karlovac is a small cosy city, located on a route between the Croatia's capital of Zagreb (very close), and a bit further from the biggest Croatian port, City of Rijeka. It is known as the town of four rivers (Kupa, Korana, Mrežnica and Dobra) and with those four rivers surrounding the town, it's location provides a perfect place for learning about environment and practicing outdoor activities.

Looked from above, it has a shape of a star, with very few other cities in the world having the same geometry as it had a very important strategic role in the history.

One of the interesting facts about Karlovac is that one of the oldest Croatian brewery, Karlovačka pivovara (croatian for Karlovac brewery) was founded in Karlovac in 1854, producing since then it's most famous and one of the „main“ Croatian beers, Karlovačko pivo. There is even a saying that beer is Karlovac's fifth river. Also, castle Dubovac watching over the town :)
