# PLURAL PERSPECTIVES: PROMOTING DIVERSITY AWARENESS

4-12 March 2024  
Bucharest, Romania

# About the project

Young people suffering from discrimination are facing uncertainties about the future, because of political populism with which they are frequently assaulted, discriminated against, social exclusion, and fake news.

Therefore, we aim to tackle the socio-cultural obstacles to achieving equal rights and non-discriminatory values, promoting EU values among young people, especially among those at risk of discrimination and social exclusion, and improve the level of success of spreading the message "**tolerance towards diversity**" in local communities by increasing the capacity of all stakeholders from EU to organize successful and efficient local awareness campaigns aiming to promote tolerance and combat discrimination.

# Objectives

1

- Developing the competences of 27 youth workers to organize successful and efficient awareness campaigns aiming to promote tolerance through developing media literacy and critical thinking;

2

- Enhancing the capacity of 9 NGOs to become active against hate speech and discrimination in their local communities and online by following the No Hate Speech Youth Campaign guidelines and methods;
