Histograma de On a scale of 1 to 10, how much do you think climate change threatens your personal health and safety?

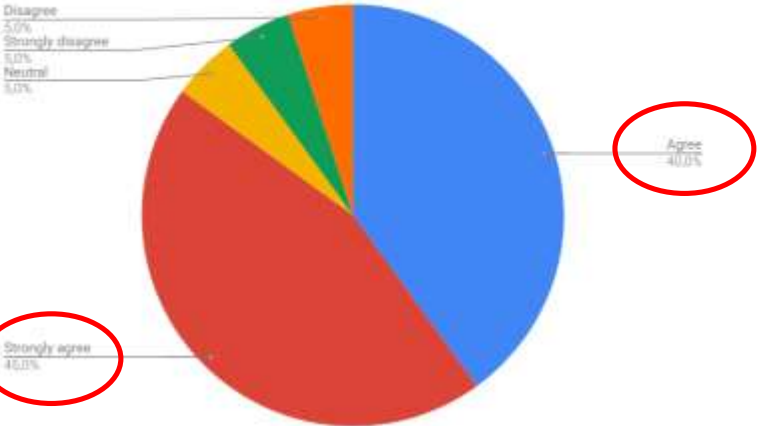

On a scale of 1 to 10, how much do you think climate change threatens your personal health and safety?

Histograma de How likely are you to recommend a friend or a colleague to promote activities that will help reduce global warming? (1=Very Unlikely to 10=Very Likely)

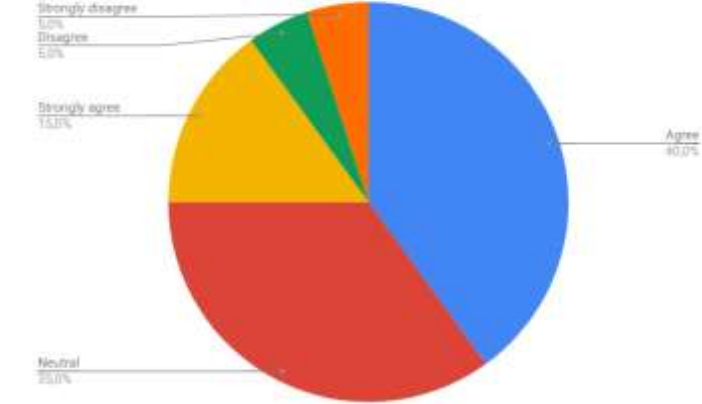

How likely are you to recommend a friend or a colleague to promote activities that will help reduce global

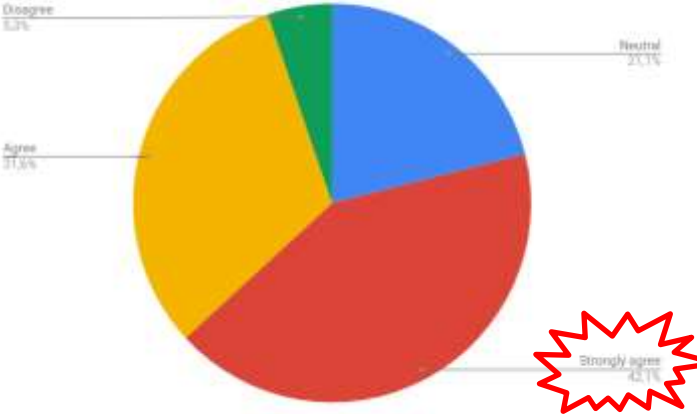

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [It poses a serious threat for people around the world.]

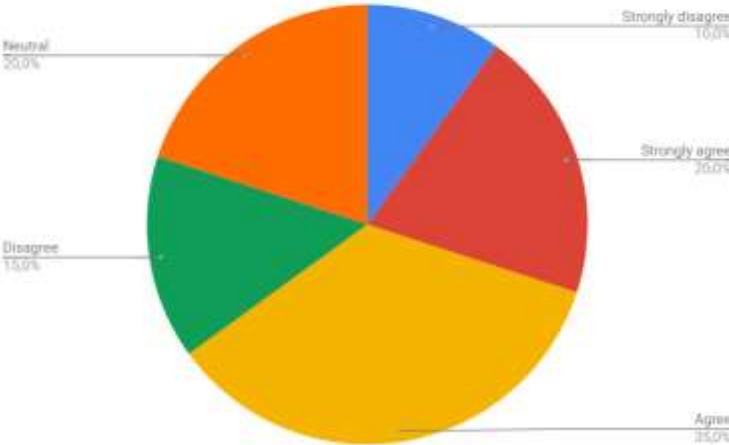

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [It poses a serious threat to you and your family.]

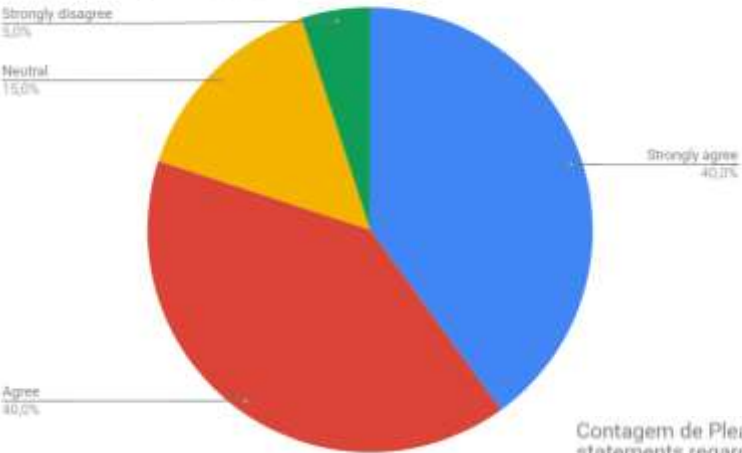

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [It is caused by human activities.]

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [Problems and its impact are underestimated in the news.]

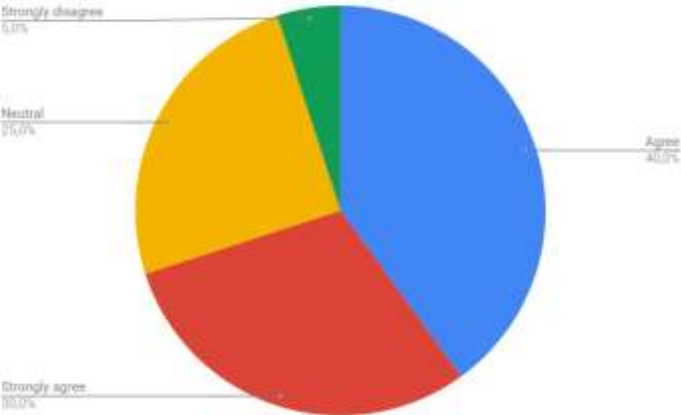

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [Climate change is happening right now.]

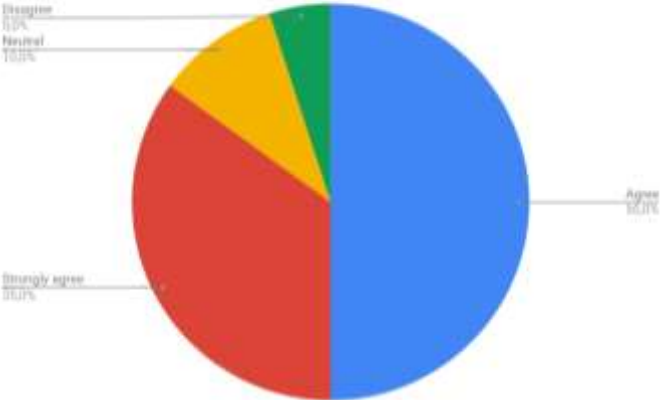

The majority of portuguese people know and have a good notion about climate change

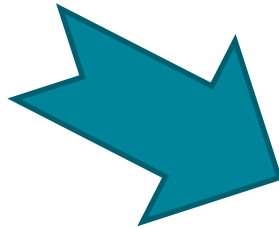

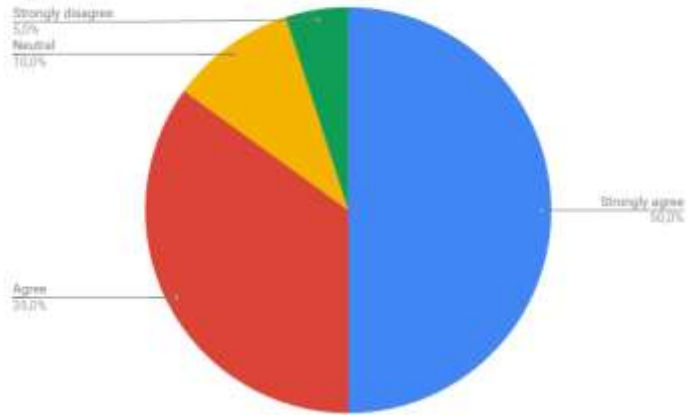

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [I am ready to reduce my energy usage to tackle climate change]

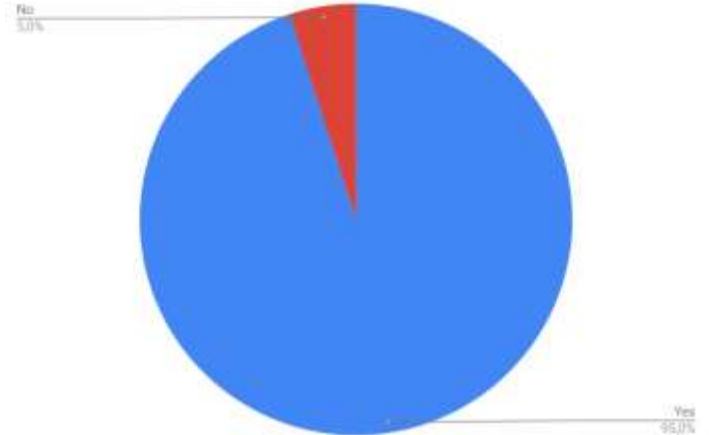

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [You understand what climate change means.]

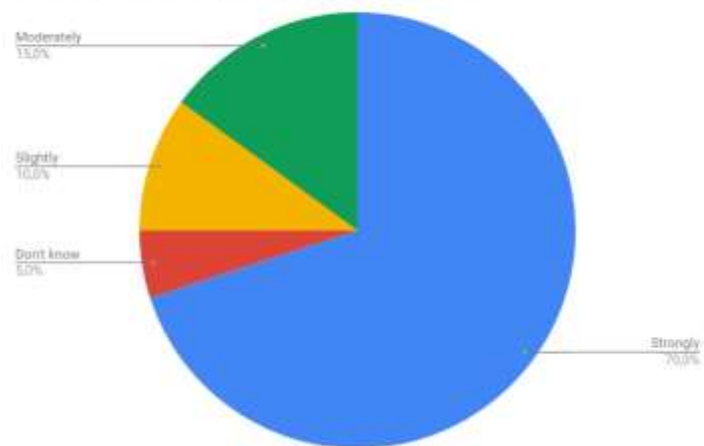

Contagem de Please state your level of agreement for the following statements regarding global warming/climate change: [The global temperatures have changed compared to the previous decade.]

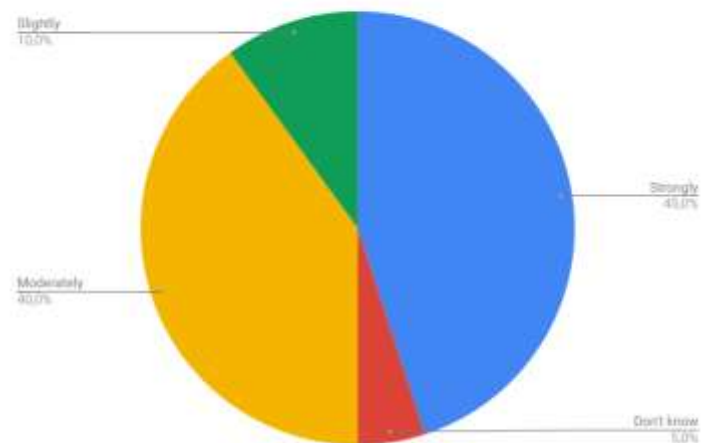

Contagem de Are you aware of the global policies or initiatives taken by various organizations to reduce climate change/global warming?

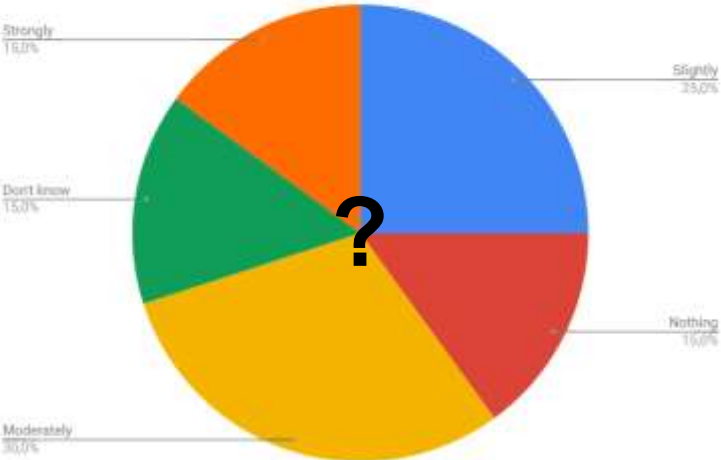

Contagem de How much do you think the following has contributed to global climate change? [Greenhouse gases]

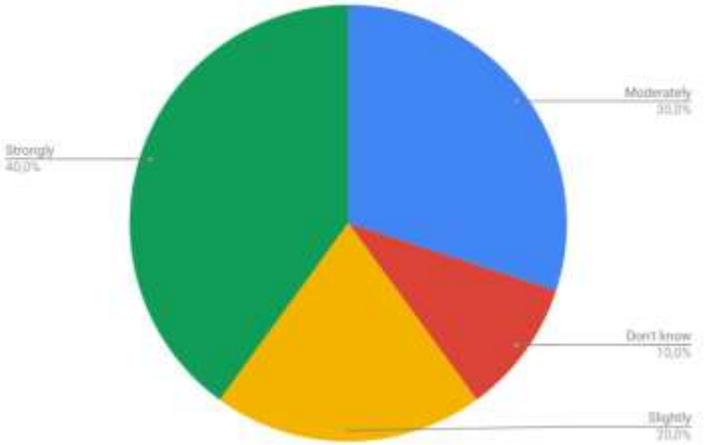

Contagem de How much do you think the following has contributed to global climate change? [Land use and land cover]

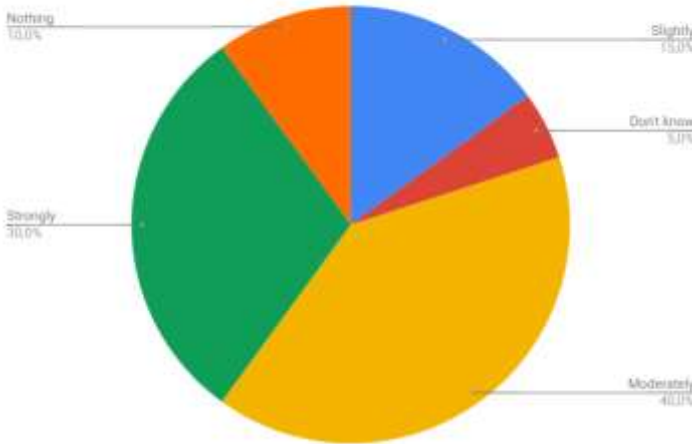

Contagem de How much do you think the following has contributed to global climate change? [Sun]

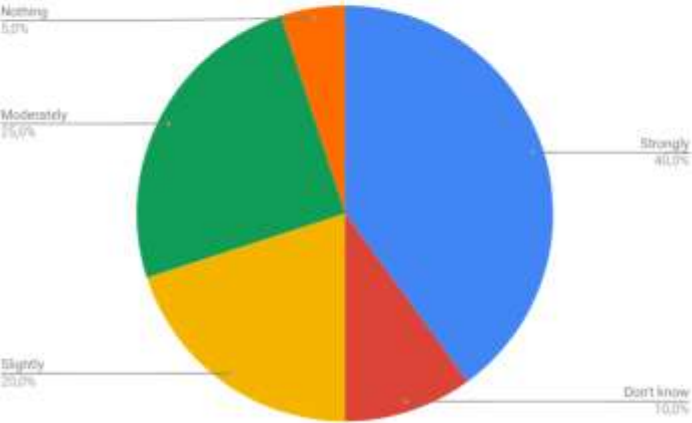

Contagem de How much do you think the following has contributed to global climate change? [Aerosols]

Contagem de How much do you think the following has contributed to global climate change? [Melting of Ice or volcanic eruptions]

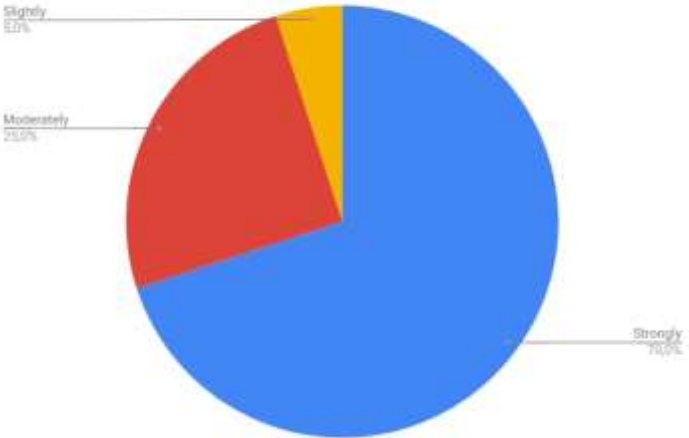

Contagem de How much do you think the following has contributed to global climate change? [El Niño or irregular warming of surface water]

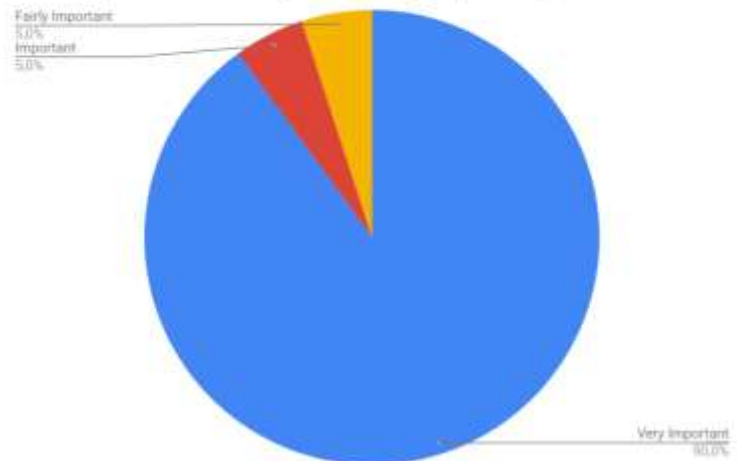

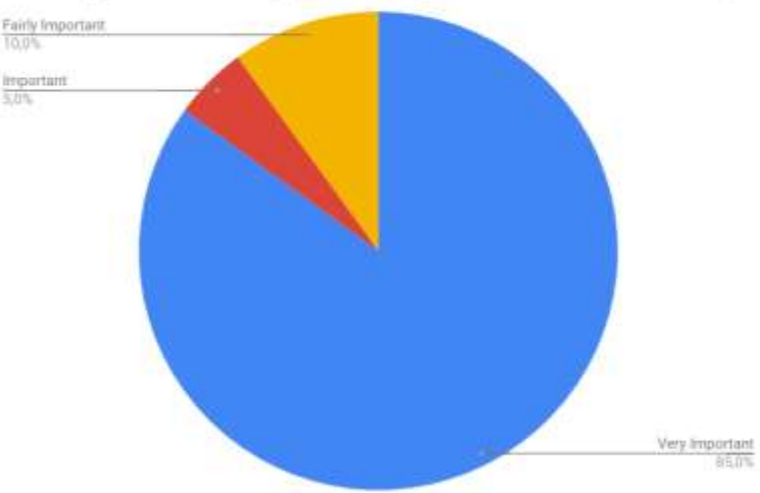

Contagem de How much do you think the following has contributed to global climate change? [Deforestation]

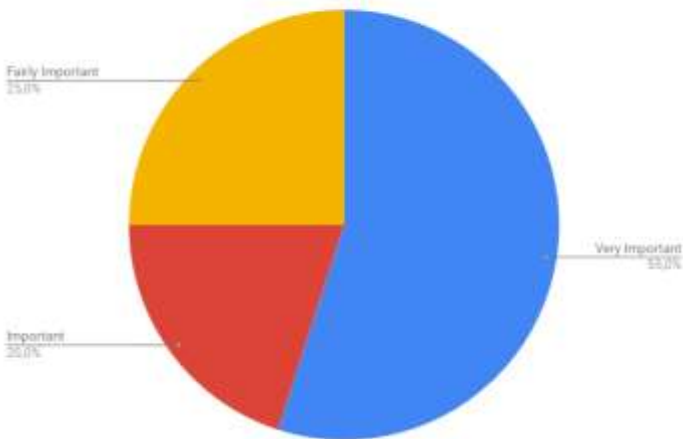

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Air pollution]

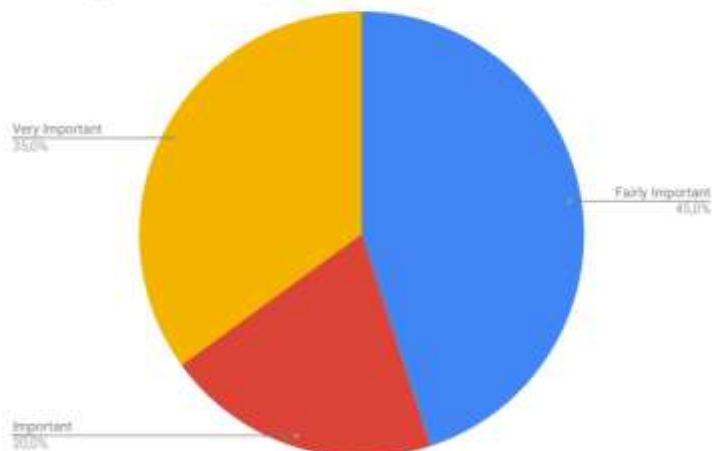

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Pollution of rivers and seas]

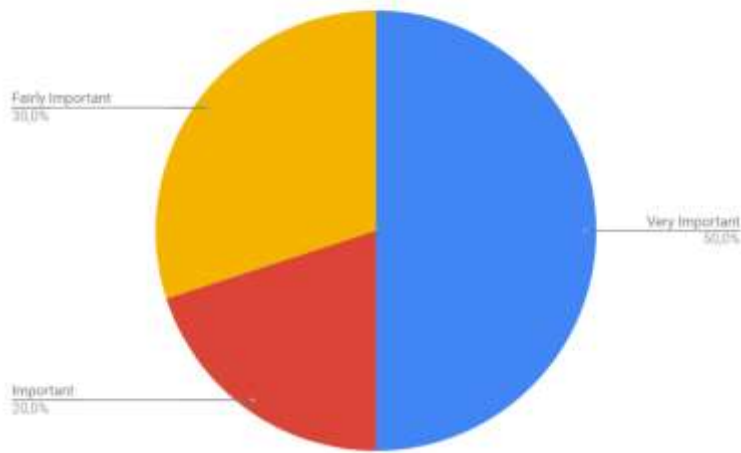

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Flooding]

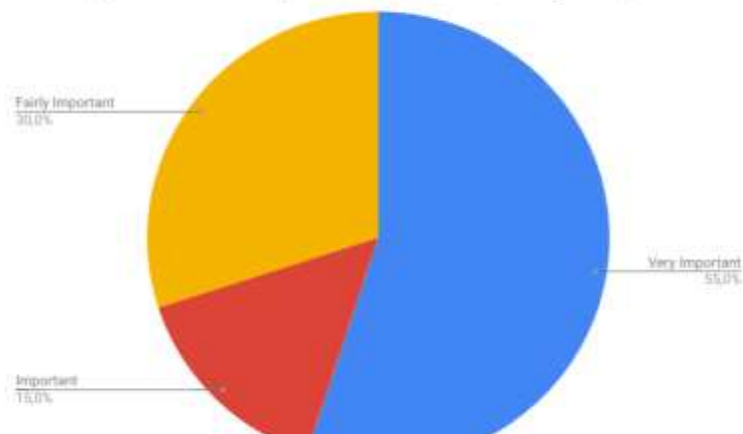

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Litter]

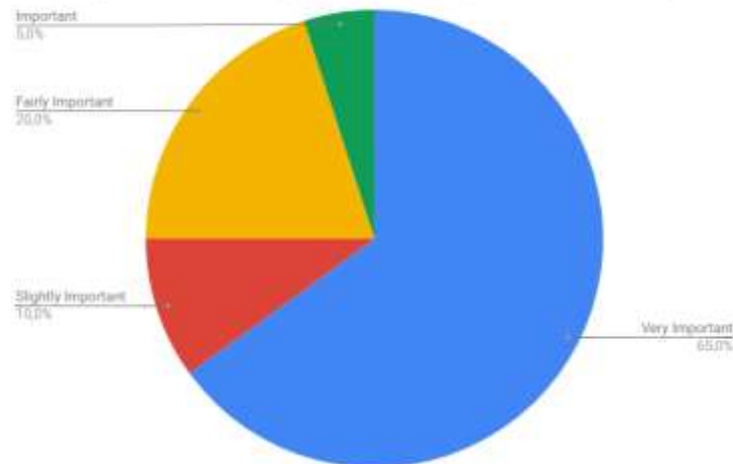

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Poor waste management (e.g. overuse of landfills)]

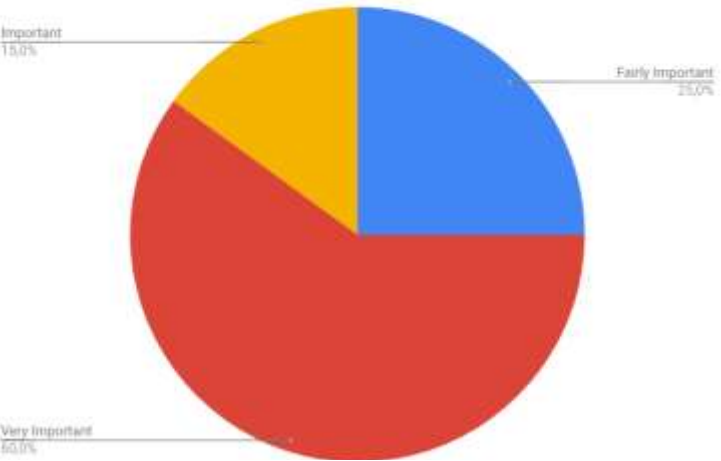

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Traffic/ congestion]

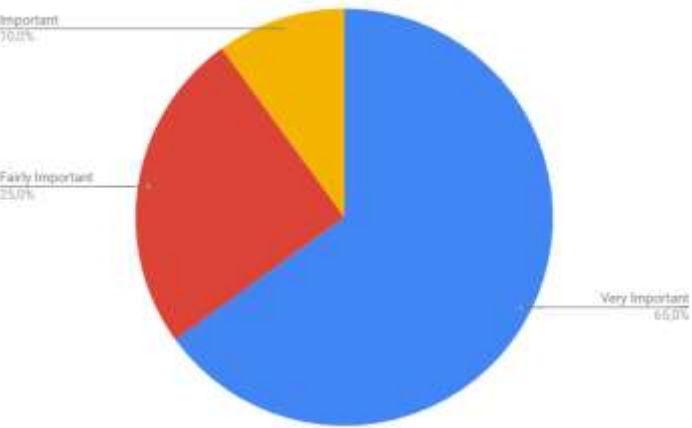

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Temperature rise or drop]

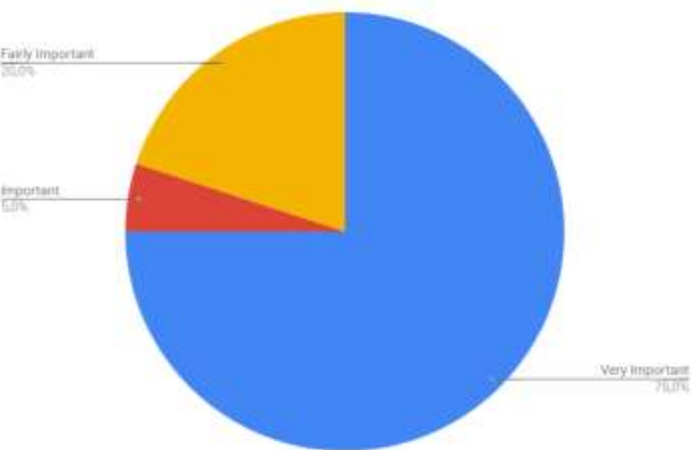

Contagem de In your opinion, how important do you think the following issues are on a global scale? [The hole in the ozone layer]

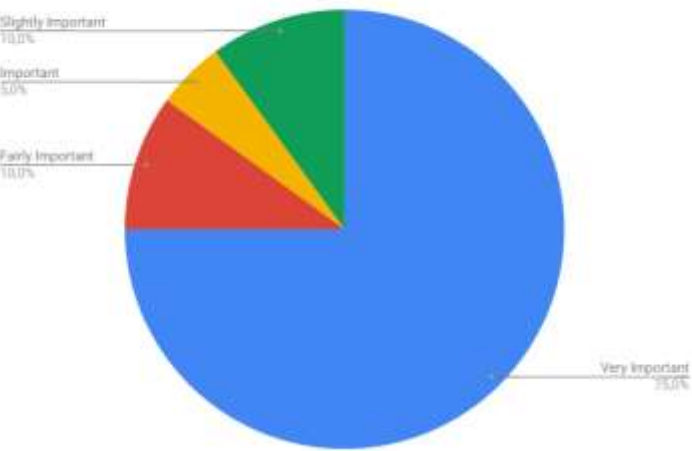

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Using up the earth's resources]

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Extinction of species]

Contagem de In your opinion, how important do you think the following issues are on a global scale? [Radioactive waste]

# CONCLUSION

**This study showed that even though majority of the people are aware of the problema, it's possible to notice that the data given when people affirmed they know what climate change is mismatched with their true knowledge about some topics.**

A single tree stands on a small, rounded hill. The left side of the tree is bare and skeletal, while the right side is lush with green foliage. The ground in the foreground is parched and cracked, contrasting with the green grass on the right side of the hill. The sky is filled with dark, heavy clouds on the left, transitioning to a lighter, blue sky on the right.

**“Earth provides enough to  
satisfy every man’s need, but  
not every man’s greed”**

Mahatma Gandhi
