

BRIDGES

UNITING ART FOR A SUSTAINABLE FUTURE

LLINARS DEL VALLÈS - SPAIN

About the project:

- **Number of participants:** 40
- **Partners organizations:** 5
- **Dates:** August, 2024
- **Location:** Llinars del Vallès, Spain

OBJETIVES

- Empower youth through art and enhanced participation, providing them with skills and spaces to express and act for a better future.
- Foster multicultural understanding and knowledge exchange among youth on personal, professional, and cultural levels.
- Promote social awareness and encourage creative actions for a more sustainable and inclusive society.

METHODOLOGY

Our methodology centers on an eight-day residential Youth Exchange, focusing on youth participation through art for more sustainable, ecological and inclusive futures. Participants explore the project theme, acquiring tools for creativity and participation. Integrating non-formal and informal education principles, our exchange contemplates a diverse program, fostering reflection and group collaboration. Emphasizing multicultural dialogue, our approach aims to cultivate a dynamic environment for a rich learning experience.

PARTICIPANTS

We expect seven (7) young participants and one (1) group coordinator, in total eight (8) people, per organization to attend this YE.

We hope and require from partners:

- To select participants for the youth exchange, interested in the topic of the project and open to participate in the activities and exchanges.
- To support and prepare the participants for this experience.
- To co-operate in each stage of the project and to promote project results.
- To sign and send by email partnership agreement and all required documents

Deadline to submit:
February 13th. 2024

WHY

Living in an ever-changing reality marked by instability, discrimination, job insecurity, wars, social conflicts and climate change impacts, we recognize the significance of raising awareness and the urgent need to come together and actively participate in the search for creative solutions for a more sustainable future.

AIM

In line with Europe 2030, let's collaborate in the joint design of strategies to build a more sustainable and inclusive future. The main objective will be to promote awareness, social participation, and the engagement of young people through artistic practices and the exchange of experiences to learn and improve their work and personal skills. This will also contribute to increasing employability, promoting inclusion, and fostering social participation.

**Transform your life with our project
and be part of the fight for a better
future!**

**Discover, learn and embark on a
journey of non-formal learning, travel
and cultural exchange with people
from diverse backgrounds, expanding
your way of thinking and collaborating
in the search for friendlier horizons.**

**Join us on this transformative
adventure!**
