

Good morning, we are a social cooperative "In Cammino" from San Pellegrino Terme (20 km from Bergamo - Orio al Serio airport - close to Milan, Lake Como and Venice) interested in getting to

know European partners who are experimenting with deepening issues related to youth aggregation and protagonism. The cooperative owns an educational hotel that will allow conviviality and stay. With funding from the project we could experiment with workshops related to the senses and Italian food in its function of sociability, promote inclusive practices in play and moments of youth aggregation (through sports, sociability) to increase the inclusion of youth with disabilities and youth at risk of social exclusion.
