D. BACKGROUND AND EXPERIENCE	
Please briefly present the partner organisation.	Anaglyfo Consulting is one of the leading VET organizations in Limassol, Cyprus. Anaglyfo is an Accredited Training Center for its Infrastructure (Experience, Quality of Training Programs, etc.) , an Accredited Training Center for its facilities and an Accredited center for Training New Trainers by the Human Resource Development Authority of Cyprus. Moreover, all its trainers are also certified by HRDA. Anaglyfo currently has five employees. In addition, the organization cooperates with trainers, lectures and other professionals and associates where necessary for the successful completion of its projects. Anaglyfo mainly focuses on sustainability, adult training, youth and NEED development, Digitalization, ICT skills and Media Literacy. It was founded in 2008 and since then, the strong and talented team of professionals' offers unique and valuable services to its partners to create a sustainable competitive advantage in every project is involved. The Anaglyfo team has substantial experience in the related fields with 100% positive feedback for the projects it takes responsibility.

	Anaglyfo has implemented many actions and initiatives, which makes us a highly specialized state-of-the-art organization. Furthermore, our adaptation of new technologies offers us the opportunity to develop and collect a great number of experience in innovative tools, apps, entrepreneurial products, lifelong learning platforms and practices. Our Vision To be one of the premier vocational and social organizations in Cyprus, recognized for its excellence in educational advances and opportunities it creates in diverse perspectives and participants. Our Mission To promote leading-edge practices contributing to the betterment of society in today's complex global environment. To give education a new dimension through implementation of new technologies and instructional practices. Our Objectives To promote next generation learning in European level. To conduct high-level trainings and sustainable projects in various educational fields To promote innovative technology through its trainings and other activities To encourage the interconnection and cooperation between societies all over Europe and worldwide To foster entrepreneurship and innovation competencies To promote the personal and professional development of various target groups (students, youth, professionals, adults, NEED) To encourage sustainable development in the frames of the Sustainable Development Goals (SDGs)
What are the activities and experience of the organisation in the areas relevant for this application?	Anaglyfo offers services in the areas of professional training and development through innovative methodologies in formal and non-formal settings. We conduct initial and continue vocational training and workshops for personal and professional skills growth. Our policy for people is that, the people can develop their personal and life skills to the full only through learning by doing. Therefore, we adopt a policy of formal and non-formal education based on commitment through active participation. We hope that through the initiatives created by our organisation we create a framework where participants will have the opportunity to express themselves and become aware of their potential and how to maximize it to the full. Our expertise focuses mainly on: We have a wide spectrum of expertise; an indicative list would be the following fields: • Education & E-learning: Diagnosing and fulfilling educational and training needs of individuals and groups by developing an array of training curricula and customized courses, instructional programs, educational platforms, e-learning applications, and material. • Digital Transformation & ICT skills: Educating people and companies in the digital mentality, digitalization, blockchain technology, platforms and innovative technologies, and connecting them with entrepreneurial mindset as a driver of innovation tools to achieve digital transformation successfully.

	• Innovative Business Models: Identifying and developing profitable innovative business models including blockchain business models for startups, SMEs and companies in all industries, to increase efficiency and sustainable impact. • Entrepreneurship: Promoting change for the better, through entrepreneurial and innovative actions, on-going consultancy, and strategic visioning across Europe. • Social Inclusion & Integration: Aiming to achieve gender equality, empower diversity and improve the social integration of vulnerable groups, such as NEETs, by identifying skills' gaps, investing in comprehensive career guidance and consultancy, and cultivating new competencies for successful labor market inclusion. • SMEs & Start-ups: Assisting the local and international startup and SMEs ecosystems in different phases of their evolution, providing personalized training solutions, business guidance and funding opportunities to achieve the highest growth rates. • Youth: Facilitating youth inclusion, training and mentoring youth entrepreneurs to not only develop essential skills but also to move ahead starting their own businesses. • Green & Sustainability: We identify the Green Growth and Sustainable Development sectors as two major factors that affect climate change and shape the labor market and the entire economy. We educate people and companies in green technology and sustainable living, by developing technology platforms and training material to help cultivate the much-needed skills and competencies.
What are the skills and expertise of key staff/persons involved in this application?	Our team consists of a variety of professionals that come from diverse backgrounds and experiences, bringing together a great combination stretching from business development to NGO, ICT skills and technology (blockchain) and personal development. Anaglyfo also uses part time associates with specialised skills and qualifications. Our full time employees that will be directly related to the project are: Evagoras Kasinides (BSc, MBA), Director, 15 years experience in business consulting and training, more than 70 implemented projects and more than 1000 hrs training experience. He also works as an international trainer, leading both online and offline trainings, and utilizing non-formal, self-development, and outdoor education methods. He is focusing on introducing innovation in the operational scheme of the organization. One of his specialties is working as an advisor to small entrepreneurs for business developments matters. Maria Christofi (BSc, MA), Business Development Manager, trainer, 10 years experience on training development and coordination, seminar coordination, business consulting, entrepreneurship and youth training. She has written and coordinated several training courses, and EVS projects. In addition to her expertise in project management, Maria has experience working with groups, particularly youth groups, in non-formal and outdoor education settings. Her fields of expertise and interest include culture and arts, tourism, digital education, digital innovation, democracy defense, women empowerment, and environmental protection. Giota Economidou (BSc, MBA), Project Manager, 6 years' experience in ICT skills, online trainings and trainings with youths. He focuses in data analysis, business, financial planning, productivity models, metrics and Key performance Indicators. She has a big experience in organizing courses and carrying out lectures in various topics related to his expertise.
