Who are we?

Cumhuriyet Teknokent Technology Transfer Office (TTO) was established in 2013 to bring the knowledge of Sivas Cumhuriyet University to the industry and business world. Conducted within our university;

- Making scientific studies available to the sectors in need,
- Analysis, evaluation, licensing of studies that may gain commercial value, and follow-up of the patent process,
- To provide training and consultancy services on legal, administrative, technical and budgetary issues and to coordinate the relevant units in the application, realization and commercialization processes of training, consultancy services carried out by university employees or partnered projects.

It is a business established within Cumhuriyet Teknokent.

We want to partner and cooperate on European Union projects. As a status, we operate as both a business and a public institution. We want to be your partner in the projects you have written or will write. We hope you will join us in the projects we will develop.

Cumhuriyet Teknokent Technology Transfer Office (CUTTO) coordinator/partner in projects funded under various EU programs (e.g. ENPI, Horizon 2020, Erasmus+, Daphne, Creative Europe, etc.)

It is a reliable partner and coordinator in Dissemination for your project proposals in the field of Erasmus Plus K152-153/ K2/ K3.

CUTTO has developed, provided consultancy and implemented hundreds of regional projects. It has a very good infrastructure in Erasmus K152-153, K2 and K3 Projects and partnerships.
