*AN EDUCATIONAL AND SPORTING CENTER AT
THE SERVICE OF THE YOUNGEST*

WHO WE ARE

SPORT AND NON-FORMAL EDUCATION AS ENGINE FOR SOCIAL INCLUSION

The P.O.R.TO Don Bosco sports center has been operating for decades in the Don Bosco parish center of Giardini Naxos, in the Calcarone district.

Our mission is to offer educational tools to young generations based on non-formal learning methods and on sport as a driver of integration and social inclusion. The urban context in which we operate is characterized by great economic fragility and young people often risk taking paths far from legality and civil coexistence. On the contrary, we intend to train young people in the name of the Salesian values of solidarity, cooperation, mutual respect beyond any social and cultural barrier.

The association involves the youngest in sport activities such as volleyball and football. Moreover, especially during summer, the association organize a summer camp in which the youngest practice water sports such as kayak with qualified instructors, dance activities, theathre activities and non-formal plays and activities finalised in developing their abilities and their sense of mutual respect and solidarity.

During the year the association involves the youngest in official sport championship, soccer school and education activities.
