**Would you like to make any comments or add any information to the summary of your organisation's past participation?**

As members of the "Change Lovers Society", we're new to Erasmus+ but bring extensive experience in coordinating youth activities. With our proven track record, we're confident in our ability to make valuable contributions to the program.

## Briefly about “Change Lovers Society”

The Change Lovers Society is an informal group formed by a collective of passionate young individuals committed to making a positive impact within their communities. At the core of our mission lies the belief in the potential of young persons from Bakuriani (aged 15-30) to effect change and contribute meaningfully to society. Our overarching aim is to empower youth by equipping them with the necessary skills and resources for personal and professional development.

Central to our ethos are several key objectives. Firstly, we strive to foster a culture of continuous learning and growth among our members. Through a variety of initiatives and activities, we aim to enhance their employability skills, including communication, teamwork, leadership, and critical thinking. By providing opportunities for skill-building and knowledge exchange, we enable young individuals to unlock their full potential and pursue their aspirations with confidence.

Moreover, the Change Lovers Society is deeply committed to promoting personal growth and well-being among its members. We recognize the importance of nurturing holistic development, encompassing physical, mental, and emotional aspects. To this end, we organize workshops, seminars, and self-development sessions designed to cultivate resilience, self-awareness, and emotional intelligence. Through these activities, we seek to empower young people to navigate life's challenges with resilience and optimism, thereby fostering their overall well-being and fulfillment.

In addition to individual development, our group is dedicated to fostering a sense of community and social responsibility among its members. We believe in the power of collective action and collaboration to drive positive change. As such, we actively encourage our members to engage in community service projects and volunteer initiatives aimed at addressing local challenges and making a tangible difference in the lives of others. By coming together to work towards shared goals, we not only create meaningful impact within our communities but also strengthen bonds of solidarity and empathy among our members.

## Activities and Experience

The Activities and Experience of the Change Lovers Society reflect our commitment to empowering youth through innovative and impactful initiatives. Through a blend of non-formal learning methodologies, we strive to equip our members with the skills, knowledge, and experiences necessary for personal and professional growth.

One of our activities is our **Skills Workshops** series, where we host interactive sessions focused on a variety of topics such as communication skills, leadership development, and problem-solving. These workshops provide hands-on learning experiences and opportunities for participants to practice and refine their skills in a supportive environment.

In addition, we organize **Career Development Seminars** aimed at providing practical insights and guidance to help our members navigate the job market effectively. These seminars feature guest speakers from various industries who share their experiences, expertise, and tips for success, empowering participants to make informed decisions about their career paths.

Furthermore, our **Peer Mentoring Program** pairs experienced members with newcomers to provide personalized support, guidance, and encouragement. Through one-on-one interactions and regular check-ins, mentors offer advice, share resources, and help mentees set and achieve their goals, fostering a culture of mutual support and growth within our community.

At the heart of our approach is the use of **non-formal learning** methodologies, which prioritize experiential, participatory, and learner-centered approaches. We believe in the power of hands-on experiences, group discussions, role-playing, and reflective exercises to facilitate deep learning and personal development. By engaging participants actively in the learning process and tailoring activities to their interests and needs, we create meaningful and impactful learning experiences that resonate with our members.

In summary, the Activities and Experience of the Change Lovers Society reflect our dedication to empowering youth through dynamic and innovative initiatives. From Skills Workshops to Career Development Seminars and Peer Mentoring Programs, we offer a range of opportunities for our members to learn, grow, and thrive. By embracing non-formal learning methodologies and fostering a culture of collaboration and support, we strive to equip our members with the skills, confidence, and resilience needed to succeed in today's rapidly changing world.

## Skills and Expertise of Key Staff Involved

**Ketevani Belikanidze** – founder of “Change Lovers Society” - brings experience in project management and youth development. With a background in organizational leadership and strategic planning, she excels in coordinating and overseeing various initiatives to ensure their successful implementation. Ketevani's strong communication skills and ability to build and nurture relationships enable her to effectively engage stakeholders and mobilize resources to support the organization's goals. Moreover, her passion for empowering youth and commitment to social impact drive her dedication to creating meaningful opportunities for personal and professional growth within the community.

**Mariam Asurmava** is a leader with a deep understanding of youth empowerment and non-formal education. With a background in psychology and counseling, she brings a unique perspective to her role in designing and facilitating engaging and impactful learning experiences for members of the Change Lovers Society. Mariam's expertise in group dynamics, conflict resolution, and emotional intelligence enables her to create inclusive and supportive environments where participants feel empowered to explore their potential and pursue their goals. Her commitment to fostering personal growth and well-being among young individuals is reflected in her dedication to providing mentorship, guidance, and support to help them navigate life's challenges and achieve their aspirations.
