

## **"YOUTH AND AI "**

### **ERASMUS + Youth Exchange (KA152-YOU)**

**CONTEXT:** Artificial intelligence (AI) is a general term covering a range of techniques that enable machines or code to imitate human intelligence. If you SMS a friend to meet for coffee, your phone understands that and adds the

information to the calendar, it's done by AI. Artificial intelligence has great potential for our societies in various fields such as health care, transport or climate change. It can process large volumes of data and recognize patterns. In the present and the future, young people will have to use it

more and more in their lives, their education and especially in their future work. To answer these needs Association "Youth for development of Lyaskovets" prepared this project. The association team hopes to find ways to stimulate young people to engage more in technologies, exploring AI, and support them to develop their skills how to use AI.

**DURATION:** 3 June –9 June 2025

**VENUE:**

Lyaskovets, Bulgaria: <http://en.wikipedia.org/wiki/Lyaskovets>

Veliko Tarnovo District, Bulgaria: [http://en.wikipedia.org/wiki/Veliko\\_Tarnovo](http://en.wikipedia.org/wiki/Veliko_Tarnovo)
