Our association was officially established in 2011, and youth and youth are at the top of our field of activity. We aim to find a common solution by combining the youth deficiencies that we have a structure built on young people. As the association, we have implemented many youth projects so far and we have been involved in various projects. Even if our target groups are young people in general, women, The disabled and disadvantaged groups around us are our main target groups abroad. To organize trainings that will facilitate the participation of young people in social life. We are an active non-governmental organization that operates on many basic social problems such as affecting basic social problems such as unemployment, interfering with the decrease in the schooling rate of young people, helping them fight against negative environment and living methods.

What are the activities and experience of your organisation in the areas relevant for this project?

The main activity of the Entrepreneurial Youth Association is to encourage young people in the field of entrepreneurship, provide them with support and offer them educational opportunities. The main areas of activity of the association can be listed as follows:

**Entrepreneurship Training and Workshops:** Various trainings and workshops are available for young people to gain basic knowledge and experience about entrepreneurship. These trainings cover topics such as preparing a business plan, financial management, marketing strategy and innovation.

**Mentorship Programs:** It offers the opportunity to guide young people by bringing them together with experienced entrepreneurs. These programs aim to help young people find solutions to the challenges they face on their entrepreneurial journey.

**Entrepreneurial Projects and Competitions:** Competition opportunities and financial and financial support support for successful projects are starting in order to support young people to continue their lives in their own businesses.

**Networking Events:** Young entrepreneurs get to know the business world and expand their business networks. These events summarize getting together with global business people and sector professionals.

**Social Awareness and Social Entrepreneurship:** Projects are developed in the field of social entrepreneurship and aimed to be developed in a way that benefits society. Projects that are particularly focused on environmental, educational and social issues are encouraged.

**International Collaborations:** Young entrepreneurs are presented for their promotion on international platforms and for them to collaborate with different types of entrepreneurs.

Organization with this organization ensures that young people both support their individual development and create a sustainable difference in economic and social terms.
