

# BUNGAI ASOCIACIÓN

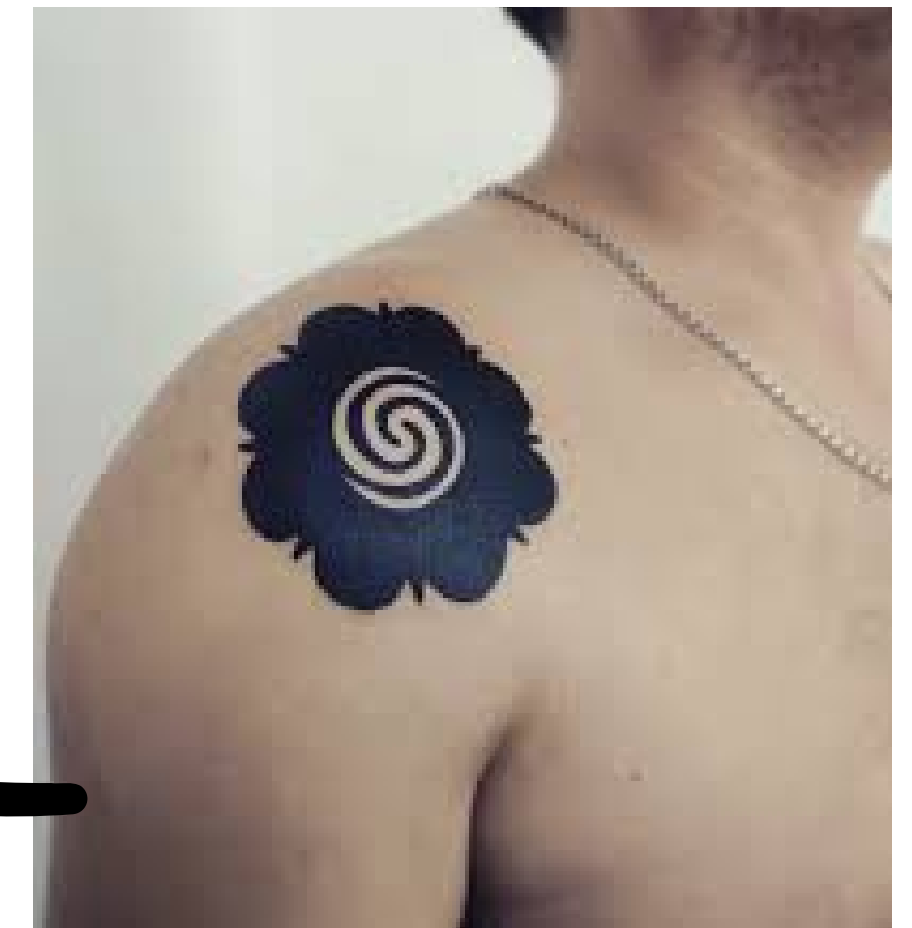

# WHY BUNGAI ?

Bungai is translated as the eggplant flower of **Borneo** and is the **first tattoo** a young person receives within the Bejalai tradition, a **journey of knowledge** and **wisdom**, in which one leaves the communal house to experience the world **autonomously**.

The location of the tattoo is the front of the shoulder, the space where the straps of the backpack rest, symbolizing the weight of **your own world** that the young person will carry, representing their **passage into adulthood.**

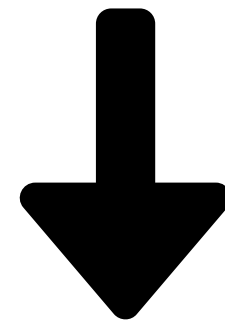

Did you know about this tradition?

# WORKING AREAS

## Personal

We strengthen the emotional and mental health of young people, promoting well-being and self-care. We encourage emotional emancipation for a balanced life, helping them face challenges with resilience and confidence.

## Social

We encourage the active participation of young people in their community, promoting values such as equality, inclusion, and respect for human rights. We work on effective communication, public speaking, and emphasize the importance of cultivating healthy social relationships. Inspiring their commitment to a fairer and more supportive society.

## Profesional

We support young people in their professional growth by promoting entrepreneurship, financial education, project creation, and language learning. We foster critical, digital, and innovative skills to prepare them for a constantly changing world.

## Erasmus +

We create and participate in youth projects with organizations across Europe, covering volunteering, exchanges, humanitarian aid, training, and more. If you are a young person or an organization and want to know how to get involved, we can help. We also provide guidance to organizations.
