Address	Same as organization

Type of Organization

Is the partner org. a public body?	No
Is the partner org. a non-profit?	Yes
Activity level	International
Has the organization received any type of accreditation before	No

Background and Experience

Please briefly present your organisation	Despite significant progress, from year to year, the Office of the Public Defender of Georgia in its reports speaks of serious problems in terms of human rights protection. At the same time, public awareness about human rights issues is still low at the national level. To respond to this problem (and not only that) in 2015, we - two brothers decided to form an initiative group. In
--	---

February 2018 initiative group became a legal entity. As its mission, our organization is oriented on giving youth practical experience and knowledge along with theoretical ones, to facilitate in turning those young people into active and successful members of society, through non-formal education.

Our aims are:

- Researching human rights issues
- Raising awareness of human rights

Networking is the key to success in our work. Thus, we are trying to build one. We are members of the Youth Democracy Cohort, Grassroots Justice Network, European Forum of Georgia, DYPALL Network, European Student Think Tank, Network of Think Tanks on the EU's Eastern Partnership Policy, National Council of Youth Organisations of Georgia, Georgian National Platform of the Eastern Partnership Civil Society Forum, and Eastern Partnership Civil Society Forum. These affiliations have already yielded numerous success stories through our collaborative efforts.

Georgia has always been multinational and multicultural. Here are many different ethnicities. Mostly large groups live in the countryside. And in some regions, there are so many of them that it is even difficult to call them minorities in this particular locality. In our country, everything is accumulated in big cities. Few organizations want to work in rural areas. Young people who live in rural areas have less opportunity to participate in youth educational projects. These young people are much more vulnerable, and they most need our help. Their involvement is crucial, due to the lack of integration, we even have the threat of radicalization among them. That is why the main idea of the organization is to encourage the participation of these youngsters. We hope that participation in our projects will be productive for them. These additional competencies that they will gain from us, will be used to accomplish our organization's goals in their local communities.

	<p>There is great interest from the youth towards our organization and they are heavily involved in the activities of the organization through the way of voluntary participation. We have a large number of volunteers and we can fully undertake the following directions:</p> <ul style="list-style-type: none"> • Youth Exchanges • Training and Networking • Transnational Youth Initiatives • Strategic Partnerships • Capacity Building • Meetings between young people and decision-makers <p>With our existing and future partners, we can make a difference in the lives of young members of our society</p>
What are the activities and experience of your organization in the areas relevant for this application?	<p>We work with different marginalized and vulnerable youth groups and use various methods and techniques. We are always trying to find creative and innovative ways to spread our ideas. From our experience, we know that it all depends on how we are doing, and not just on what we are doing. This is why quality development is crucial for us. Young people and especially teenagers can easily get bored. We always need to try something new that will attract their attention and stimulate the motivation to participate. In this regard, we can boldly say that we have used all the possible methods from the categories of Debates, Discussions and Group Work; Simulation Experiences and Roleplays; Evaluation, Assessment, Debriefing and Closing.</p> <p>The needs and competencies of our volunteers are diverse, and this gives us the opportunity to work in different directions. With them and for them we organize trainings, workshops, various sessions and study visits using a non-formal education approach. We organize projects of different disciplines to make sure that everyone is involved</p>
What are the skills and expertise of key staff/persons in your organization that will be involved in this project?	<p>Davit Totadze: I am the co-founder and president of the organization. I have been working with youth for a long time using non-formal education. In the past, I was a volunteer in several youth organizations. Collaboration with them helped me to elevate my</p>

	<p>competencies and when I was ready to work independently, I founded my own NGO.</p> <p>Elizbar Totadze: Co-founder and graphic/visual recorder. I have a degree in art. I specialized in painting, drawing and icon painting. Now I am more interested in graphic recording and graphic/visual facilitation. On top of all this, I also work as a project manager.</p> <p>We are not only enthusiastic and motivated guys who want to help others. With all this, We are also experienced enough to make a difference</p>
