D. BACKGROUND AND EXPERIENCE	
Please briefly present the partner organisation.	<p>The Association of The People caring for the future was established in 2013 by a group of experts, businesspeople, and scientists.</p> <p>The association operates as a scientifically-oriented civil society organization, bringing together experts, businesspeople, and scientists from a wide range of fields, from social sciences to technical sciences, with the fundamental goal of contributing to humanity. It aims to monitor and evaluate global developments, analyze</p>

the question "What can be done?" through various reports, and implement the results of these reports to achieve lasting benefits through various projects.

Strategy of the organization:

The organization's strategy is to combine scientific research, innovative technologies, and collaborative partnerships in order to address social, environmental, and economic challenges. By integrating global best practices with local expertise, the organization seeks to develop sustainable policies, implement practical projects, and raise public awareness to maximize long-term impact.

Object of the organization:

We exist as a civil society movement that explores, creates, shares, and develops knowledge and solutions to enhance social benefit, promote equal access to information, and contribute to building a smarter and more sustainable future.

Aims of the organization:

The aim of SEND is to mobilize Turkey's potential by evaluating it through studies, investigations, scientific research and analysis in various fields, to follow developments in the world, to prepare reports to provide ideas to decision-makers, and to produce solutions through national/international studies, training and projects.

In short, it means supporting everyone who says, "I have a great idea for the world!"
