🌍 CARE – Climate Awareness and Resilience Education

Purpose

The **CARE Project** aims to strengthen teachers' and educators' competencies in **climate literacy** in order to enhance awareness and resilience against climate change. It seeks to empower teachers to foster sustainable mindsets, behaviors, and skills among students.
Aligned with the **European Green Deal**, the **Paris Agreement**, the **UNFCCC**, and the **6th Environmental Action Programme**, CARE promotes education as a key driver for climate action and sustainable transformation.

Specific Objectives

- 🌱 To increase teachers' knowledge, skills, and attitudes in climate literacy and sustainability education;

- 💡 To integrate the concept of the **Twin Transition** (green and digital transformation) into educational practices;

- 🕹️ To develop **VR-based innovative learning materials and scenarios** that make climate education more engaging and accessible;

- 🤝 To establish a **multi-stakeholder learning network** connecting schools, NGOs, and the private sector for joint climate action in education.

Expected Results

- "**Climate Literacy for Teachers**" digital learning module;

- VR-supported, interactive training content based on real climate scenarios;

- Teacher guidelines and lesson plans on sustainability;

- Awareness campaigns, pilot trainings, and dissemination events;

- Formation of the **CARE Network**, uniting educators, NGOs, and local authorities across Europe.

Work Packages

1. **WP1 – Project Management and Coordination**
   Overall coordination, communication, and financial management.

2. **WP2 – Needs Analysis and Content Development**
   Mapping teachers' needs and designing educational content on climate literacy.

3. **WP3 – Digital and VR Content Production**
   Development of interactive VR modules and digital training materials.

4. **WP4 – Pilot Implementation and Capacity Building**
    Conducting pilot teacher trainings, collecting feedback, and improving outputs.

5. **WP5 – Dissemination, Visibility, and Sustainability**
    Organizing multiplier events, ensuring visibility, and establishing the CARE Network.

🤝 Partner Search

We are currently seeking **European partners** from **EU Member States** with expertise and active engagement in the following areas:

*   **Non-Governmental Organizations (NGOs)** working in climate education, environmental awareness, or youth empowerment;

*   **Sector representatives / private entities** with experience in green innovation or digital learning tools;

*   **Universities or research institutions** specializing in teacher education, sustainability, or digital pedagogy.

Interested organizations are warmly invited to join the **CARE consortium** to co-create innovative and impactful tools for climate literacy in Europe.
