**YES / NO**

**IF YES, please fill this table**

Accreditation type	Accreditation reference
Ankara Provincial Directorate Of National Education	2025-1-TR01-KA121-VET-000335934

## Background and experience

Please briefly present your organisation (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff , learners and members of the group).

Our school is a **Vocational and Technical Anatolian High School** that started its educational activities in 2001. Since its establishment, the school has aimed to meet the country's need for a qualified workforce by adopting an innovative, student-centered educational approach that closely follows technological developments.

Our institution offers education in various fields that respond to the needs of different sectors, including:

- **Electrical and Electronics Technology Field / Industrial Maintenance and Repair Branch,**
- **Installation Technology and Air Conditioning Field / Building Installation Systems Branch,**
- **Information Technologies Field / Software Development Branch,**
- **Child Development and Education Field / Early Childhood Education Branch.**

Our school continues its educational activities with **3 administrators, 25 teachers, and 172 students**. With a qualified teaching staff, a practice-oriented education approach, and

modern workshop and laboratory facilities, the school aims to develop students' professional and technical skills.

Based on the principles of **digital transformation, sustainability, occupational health and safety, and lifelong learning**, our institution aims to educate students as employable, entrepreneurial individuals who can effectively use technology at both national and international levels. In line with this vision, the school operates as an educational institution open to international cooperation and project-based activities.

This project aims to improve **occupational health and safety practices** in workshop environments within vocational and technical education institutions. Within the scope of the project, it is intended that teachers observe **good practices through job shadowing** at a vocational education institution in Europe and disseminate these experiences within our institution.

The project supports the strengthening of a **safe workshop culture through innovative and digital approaches**, the recognition of **European standards**, and the creation of **safer and more accessible learning environments for female students and students with special educational needs**.

**Have you applied for/received a grant from any European Union programme in the last 3 years preceding this application?**

**YES / NO**

**IF YES, please fill this table**
