3. Organisational Profile

Elevatorfy is a Madrid-based EdTech startup that develops a digital platform designed to manage entrepreneurship education programs. Our SaaS solution empowers universities, business incubators, accelerators, and educational institutions to deliver structured, engaging, and outcome-driven learning experiences for aspiring entrepreneurs. Our mission is to facilitate accessible, impactful entrepreneurship education by combining microlearning, mentorship, community engagement, and real-time tracking of progress and performance.

The platform supports a full learning journey, from ideation to validation, through interactive modules, practical exercises, and personalized feedback.
We believe in fostering entrepreneurial mindsets that contribute to sustainable innovation,

digital transformation, and inclusive economic participation in line with the European Union's strategic priorities.

4. Motivation and Role in Erasmus+

As an organisation committed to digital innovation in education and youth development, Elevatorfy is eager to contribute to Erasmus+ projects as a strategic partner in the areas of entrepreneurship education, digital transformation, and inclusive learning.

Although we are new to the Erasmus+ framework, we bring expertise in developing scalable digital solutions, facilitating learning pathways, and collaborating with academic and entrepreneurial ecosystems. Our team is motivated to engage with experienced coordinators, learn from the Erasmus+ process, and build sustainable partnerships that deliver meaningful impact across Europe.

We are particularly aligned with the EU values of inclusion, diversity, digital readiness, and active citizenship. Elevatorfy aims to help reduce barriers to entrepreneurship by enabling young people, NEETs, women, and underrepresented groups to access high-quality learning experiences and tools that build their confidence and business acumen.

5. Fields of Interest for Collaboration

- KA220 – Cooperation Partnerships (Youth, VET, Adult Education)
- KA210 – Small-scale Partnerships
- Digital entrepreneurship education
- Youth empowerment and employability
- Inclusion and diversity in learning
- Skills development for NEETs and underrepresented communities
- Startup ecosystem and innovation capacity building

6. Operational and Technical Capacity

Elevatorfy operates a robust and flexible digital platform tailored for structured learning and program management. Our system supports modular learning, community interaction, and mentorship facilitation, making it highly suitable for international projects seeking to blend technology with educational goals.

We work with academic and non-academic stakeholders to co-create learning experiences that are learner-centric, data-driven, and impact-oriented. Our team includes professionals with experience in educational design, tech development, project management, and

communication strategies.

7. Potential Contribution to Erasmus+ Projects

- Provision of our digital platform for learning and participant tracking
- Co-design of learning modules and entrepreneurship content
- Support in impact measurement and data analysis
- Engagement and dissemination strategy using digital tools
- Facilitation of peer learning, mentoring, and community engagement

We are committed to supporting the long-term objectives of Erasmus+ by ensuring quality, innovation, and sustainability in all our collaborative actions.
