

KA210-SCH Partner Search

DISS-WELL

Digital, Inclusive and Sustainable Schools for Student Well-being

Düzce Borsa İstanbul Vocational and Technical Anatolian High School (Türkiye), a public vocational secondary school with experience in Erasmus+ cooperation, is looking for reliable partner schools from Spain and Finland for a KA210-SCH Small-scale Partnership to be submitted in the upcoming Erasmus+ call.

The project titled “Digital, Inclusive and Sustainable Schools for Student Well-being” aims to:

- + strengthen student well-being and school belonging in vocational education,
- + promote inclusive and equitable learning environments,
- + develop meaningful digital competences linked to learning quality,
- + create sustainable and transferable school-wide practices.

Planned partnership structure
Coordinator: Türkiye – public vocational secondary school

Partners sought:

Spain: expertise in well-being, inclusion, learner-centred pedagogy

Finland: expertise in digital learning, quality assurance, student-centred education

Main activities

- + Transnational teacher & student mobilities
- + Joint development of a Whole-School Well-being Toolkit
- + Digital learning modules and pilot implementations
- + Dissemination through Erasmus+ platforms and local stakeholders

Profile of the partner organisations

We are looking for schools that:

- + are active in student well-being, inclusion or digital education,
- + have Erasmus+ experience or strong motivation to cooperate,
- + are willing to participate in mobility activities and joint product development,
- + are committed to sustainable impact and long-term collaboration.

Timeline

Submission: next 2026 KA210 deadline

Please contact us with a short presentation of your school and Erasmus+ experience:
