1. ORGANISATIONAL BACKGROUND

ATLANTIC BRIDGES HUB is a newly established association currently in an early stage of organizational-development.

The organization was founded through the joint initiative of professionals with extensive individual experience in the fields of education, youth work, educational leisure, environmental education and European cooperation.

Although the association has not yet coordinated European projects as an organisation, its founding members have direct experience in programmes such as Erasmus+ (KA1 and KA2), CERV, INTERREG Atlantic Area and Creative Europe, both from participation and from management, coordination and project writing.

One of the main short- and medium-term objectives is to begin drafting Erasmus+ KA2, CERV and Creative Europe projects, progressively moving towards the coordination of some of these projects in cooperation with European partners.

At local and regional level, the members of ATLANTIC BRIDGES HUB have developed educational, cultural, environmental and sports projects for many years, providing the organisation with a solid base of practical knowledge, networks and operational capacity from its earliest stages.

2. VISION, PHILOSOPHY AND LONG-TERM GOALS

ATLANTIC BRIDGES HUB was created with the vocation of becoming an integrated youth-focused project, rooted in the Galician territory and connected to the European and international context.

The organisation places at the centre of its vision the relationship between youth, nature and sustainability, understanding learning in natural environments as a key tool for personal, social and community development.

Our approach prioritises environmental education, immersion in nature and educational leisure as privileged spaces for non-formal learning, value development and awareness-raising regarding current environmental and climate challenges.

In the medium and long term, ATLANTIC BRIDGES HUB aims to create its own physical space: an open and dynamic centre that will function as a youth meeting point, an idea laboratory and an operational base for educational activities in nature.

This space will integrate collaborative work areas, training and creation spaces, as well as technological resources (fablab, audiovisual tools, applied artificial intelligence and digital prototyping) at the service of projects with social and environmental impact.

The ultimate objective is to consolidate a model that combines learning in nature, creativity, responsible technology and social entrepreneurship, fostering innovative solutions for environmental protection, rural development and the sustainable future of communities.

3. SHORT-TERM OBJECTIVES

- Promote non-formal education and training.
- Encourage active youth participation and volunteering.
- Promote human rights, equality of opportunities, democracy and active citizenship.
- Support the social and educational inclusion of women and young people with fewer opportunities.
- Increase international cooperation and intercultural understanding.
- Promote the values and principles of the European Union.
- Develop the creative and critical potential of young people.
- Promote sport, outdoor activities and healthy lifestyles.
- Promote environmental education, nature protection and climate action.
- Foster social, cultural and environmental entrepreneurship.
- Promote art, culture and local identity.
- Support rural development and territorial sustainability.
- Combat discrimination, racism, hate speech and gender inequality.

4. TEAM AND TEAM MEMBERS

The founding team of ATLANTIC BRIDGES HUB is composed of complementary profiles with extensive experience in formal and non-formal education, youth work, activity management, environmental education and European projects.

Diego Moreiras – Founder (2026) and President

Diego is a qualified teacher with over ten years of professional experience in both formal and non-formal education with young people in Galicia. For more than six years, he has been actively involved in the training, management and coordination of youth sports teams in various disciplines, as well as in the development of educational competences through sport-based methodologies.

Furthermore, he has worked in the field of non-formal education through summer volunteer camps and served as a European Project Manager for a period of two and a half years at the association Lug Open Factory. In this capacity, he was responsible for the organisation, coordination and monitoring of projects funded by Erasmus+, INTERREG Atlantic Area, Creative Europe and CERV, acting as the main contact person for international partners and contributing actively to project drafting processes.

As President of **ATLANTIC BRIDGES HUB**, he is responsible for the overall coordination of the association, the preparation and submission of European project proposals, the coordination of approved projects, and the management of relations with national and international partners.

Vanessa Gómez García – Secretary and Activities Coordinator

Vanessa holds a degree in Early Childhood and Primary Education, with a specialisation in Therapeutic Pedagogy, and is specialised in the educational support of children with disabilities. She has more than ten years of experience in the field of educational leisure, working as an instructor and director in children's camps and volunteer camps.

She has participated in environmental volunteering projects in the Cíes Islands (Galicia) within European-level programmes, collaborating with participants from different countries. This experience has enabled her to work in multicultural contexts, communicate in English, and develop strong skills in leadership, teamwork and values-based education.

Within the association, Vanessa is responsible for secretarial duties, the coordination of educational activities, and the organisational monitoring of projects.

Juan José Blanco Ramos – Treasurer.

“**Juanjo**” holds a degree in History from the University of Santiago de Compostela and is a qualified youth leisure instructor and director. He also holds a Master’s Degree in Secondary Education Teacher Training. He has over twenty years of experience leading youth programmes at regional and national level, supported by international experiences.

He has worked as an environmental educator and cultural activities guide in natural areas such as Fragas do Eume and in museum contexts such as the Museo do Pobo Galego, designing educational experiences that connect young people with nature, cultural heritage and local identity. He is the founder and CEO of Galicia Eventos y Ocio, an organisation specialised in educational leisure activities and experiential learning.

Within **ATLANTIC BRIDGES HUB**, Juan José is responsible for the financial management of the association and for providing organisational and logistical support to activities and projects.
