Dates	26 December 2026 – 2 January 2027
Participants	37 participants (18–30 years old)
Partner Countries	Türkiye, Greece, Spain, Portugal
Group Composition	6 participants + 1 group leader

### Project Overview

“Digital Wave & Mediterranean” is a youth exchange project focused on Artificial Intelligence, digitalisation, social media, sustainability, and youth communication. The project aims to explore how AI and digital technologies are changing the way young people communicate, create, learn, and interact with each other while encouraging critical thinking and conscious technology use.

### Main Topics

- Artificial Intelligence
- Social Media & Youth
- Digital Identity
- Critical Thinking
- Sustainability
- Communication in the Digital Era
- Intercultural Dialogue

### Activities

- AI and social media workshops
- Group discussions and reflection sessions
- Forum Theatre activities

- Outdoor reflection activities
- Intercultural learning activities
- Sustainability-based community activities
- Teamwork and non-formal learning sessions
