

PROYECTO GANADERIA ECOLÓGICA, CABRAS BIOSEGADORAS EN EL PARQUE DE SAN JERÓNIMO (ORGANIC GOAT GRAZING FOR VEGETATION MANAGEMENT IN SAN JERÓNIMO PARK), EUROPEAN SOLIDARITY CORPS – ERASMUS +

Name of the organization	Federación Provincial Ecologistas en Acción Sevilla
Quality Label Code	2025-1-ES02-ESC50-QLA-000388656
Name of the project	Ganadería Ecológica Cabras Biosegadoras
	1. To facilitate the maintenance and grass cutting of green spaces in the parks of San Jerónimo and Alamillo through goat grazing, without the use of any machinery or equipment. 2. To help in the waste management from the neighbourhood and other areas of the city such as pruning waste, that will be used as feed for the goats. 3. To encourage solidarity and cooperation to promote sustainable and responsible behaviours from an environmental point of view. 4. To promote projects that contribute to environmental sustainability and biodiversity preservation in the European Union within the European Solidarity Corps.
Activities	1. Assisting with the herding of goats to and from grazing areas across the parks, as well as assisting with the general upkeep and care of the animals 2. Repurposing of pruning waste from the neighbourhood and other areas of the city. 3. Using the European Solidarity Corps to promote examples of good practices that combine collaboration and solidarity and raise awareness of the importance of taking action at a local level to reduce our environmental footprint.
