Type of Organization	Non-profit Organization
Public body?	No
Non-profit?	Yes
Main Focuses	Gender Equality, Sustainability, Youth Empowerment, Social Inclusion, Active Citizenship

C. BACKGROUND AND EXPERIENCE

Please briefly present the partner organisation.

Echo Equal is a youth-led organisation based in Macerata, Italy dedicated to promoting youth empowerment, inclusion, gender equality, sustainability, and active citizenship through non-formal education and international cooperation. The name Echo Equal reflects our core values. “Echo” represents the belief that every young person’s voice has the power to inspire others and create a positive impact, while “Equal” stands for equality, inclusion, fairness, and equal opportunities for everyone, regardless of their background.

Our mission is to create safe and inclusive spaces where young people can learn, exchange ideas, develop new skills, and actively participate in their communities. We are committed to supporting young people from diverse backgrounds, including those with fewer opportunities, and connecting them with international learning experiences through Erasmus+ and other European initiatives. Echo Equal actively builds partnerships across Europe and promotes meaningful youth participation, intercultural dialogue, and quality youth work that contributes to a more inclusive, democratic, and sustainable society.

What are the activities and experience of the organisation in the areas relevant for this application?

Echo Equal works as a sending organisation in Erasmus+ projects, supporting participant outreach, recruitment, preparation, mentoring, and dissemination. We help young people access international learning opportunities while ensuring they are well prepared before the mobility and supported throughout the learning process. Locally, we organise workshops, awareness-raising activities, community initiatives, and volunteer actions, including environmental activities such as beach clean-ups. We also regularly collaborate with international students and local young people through intercultural activities, cultural exchange events, and non-formal educational games that promote inclusion, diversity, active citizenship, and social awareness. These experiences have strengthened our competences in non-formal education, intercultural learning, participant support, facilitation, and international cooperation, which we integrate into our local and international activities. Through our digital platforms, we also create accessible content on youth participation, sustainability, inclusion, and active citizenship to encourage greater engagement among young people.

What are the skills and expertise of key staff/persons involved in this application?

Lutfia Dega — Co-Founder & Project Coordinator

She is currently studying International, European and Comparative Legal Studies. She is responsible for partnership building, project coordination, participant recruitment and mentoring, communication with partner organisations, and dissemination activities. Through her participation in several Erasmus+ projects, she has developed experience in non-formal education, intercultural learning, inclusion, gender equality, sustainability, youth participation, and project management. She coordinates Echo Equal's international partnerships and supports participants throughout the entire mobility process.

Artur Gorbachev — Software Engineer

Artur is a Software Engineer responsible for supporting Echo Equal's digital development and technical infrastructure. He contributes to the creation and management of digital tools, including websites, online application forms, and platforms that support organisational activities.

He also supports digital communication, social media management, and content-related tasks, helping Echo Equal maintain an accessible online presence and improve internal processes. His technical expertise contributes to efficient participant management, communication, and the overall digital development of the organisation.
