

CALL FOR PARTNERS

Project Title	S.A.F.E.: Safety Awareness for Emergencies- KA152
Venue	İstanbul, Türkiye
Duration of Mobilty	9 Days (7 Activity + 2 Travel Days) + 2 Days APV
Number of Participants	6 participants per partner organisation

Project Summary

The project idea of **S.A.F.E.: Safety Awareness for Emergencies** is shaped around the increasing need for young people to better understand natural disasters, emergency situations and community-based preparedness. The project aims to raise awareness among young people about disasters and emergency situations, and to prepare them as more conscious youth leaders through gamified non-formal learning activities. As natural disasters and crisis situations continue to affect communities across Europe, lack of awareness and preparedness can lead to preventable risks and loss of life.

Planned activities may include:

- **AFAD institutional visit**, which will be one of the key components of the project;
- **Study visits** related to disaster management, emergency response or civil protection;
- **Non-formal education workshops** on disaster preparedness, crisis management and youth participation;
- Practical group activities, simulations and reflection sessions;
- Intercultural learning activities and partner country presentations;
- A final output or awareness activity designed by participants.

What We Seek

- Mutual and long-term partner organisations;
- Motivated young people aged **18–25**;
- Interest in disaster awareness, civic responsibility, community engagement and youth participation;
- Participation in the **APV**;
- Active contribution to project development and dissemination activities.
