

INTERACTIVE, STORY-DRIVEN LEARNING FOR SCHOOLS, YOUTH & ORGANISATIONS

Story Games LV (Biedrība "Eiropas Attīstošo Spēļu Asociācija" / European Development Games Association) is a Latvian NGO that designs and facilitates interactive, story-driven educational games and workshops. For more than 10 years, the organisation has run corporate events, public festivals and game-based learning activities for schools, youth and adults across Latvia, combining coaching, quest design, tabletop and improvisational role-play, gamification, training and mentoring into a single learning approach.

OUR ORGANISATION

Story Games LV was founded at the intersection of coaching, game and quest design, tabletop and improvisational role-play, gamification, training and mentoring — methodologies for the development and education of both children and adults.

We support individuals and organisations in their drive to develop, achieve better results and improve every day. We take on almost any challenge identified by an organisation's leadership relating to internal or external communication processes — designing a game-based response rather than a conventional lecture or seminar.

For more than 10 years, Story Games LV has organised corporate events, public festivals and game-based learning activities for students, youth and adults throughout Latvia — from a weekly board-game club and a Latvian-language conversation club, to original discussion and role-play games (БУНКЕР, Новый Ковчег, CHICAGO: SYNDICATE) and the multi-day TERRA LUDENS games festival in Riga.

10+ Years of Experience	40+ Partner Organisations	6+ Original Game Formats	LV / RU / EN Trilingual Delivery
